### Cornwell to provide BimbiBlanket

Cornwell Drug Stores Inc. announced this week it will begin to provide the new BimbiBlanket Phototherapy System for the treatment of jaundice and which Michael Stepanides, director of Cornwell Care, says is effective for both hospital and home care use.

"We are excited about the ability to provide patients with this advanced technology which allows

effective phototherapy treatment in the convenience of the home," he said.

The blanket is a lightweight, portable illuminator and fiberoptic mat covered with a disposable cover or vest placed against the skin of the infant. The baby, clothed and diapered, may be bundled in a blanket and nursed while receiving the treatment.

New Mayor Scott Neisler presents a city appreciation plaque and a gold watch to outgoing Ward 2 Councilman Jackie D. Barrett.
