Hospice to build in-patient beds

Hospice of Cleveland County has received the Certificate of Need to build the Resident and In-Patient beds in their new facility to be built on Joe Road.

The Certificate of Need comes from the State Office of The Division of Facility Services which determines the need for these beds and the number needed in the county.

The new Hospice facility is scheduled to begin building in 1994 and now reports a total of over \$800,000 in pledges toward the \$1.2 million needed in order to begin construction.

The Capital Campaign current underway has started another division of volunteers who are calling on individuals and businesses in the area to make a three-year pledge toward the goal. There are over 100 volunteers from the community involved.
