

## Rose Ellis in AR Honor Roll

Donald Ross Ellis, son of Scott and Tammy Ellis of Kings Mountain, has been inducted into the Accelerated Reader International Reading Honor Roll for the 1994-95 school year. The honor roll recognizes students who are their school's top reader in the AR computerized reading management program.

Ellis won induction by earning 244.4 points. Students in the program earn points based on the reading level and difficulty of the books they read, and the number of questions they answer correctly on computerized book tests.

This year more than 1,000 students from school around the world were inducted. Each student receives an award certificate, and has his or her name entered in the permanent record as an outstanding achiever in reading.

"We're very proud of every student on the Honor Roll," said Judith A. Paul, Director at Advantage Learning Systems, the Wisconsin Rapids, Wis., firm that publishes the Accelerated Reader. "Not only have they demonstrated excellence in reading skills, but they have discovered the true joy of reading. At a time of declining literacy rates, the students on the International Honor Roll give us all cause for hope."

The Accelerated Reader is currently in use by millions of students in over 16,000 schools across the United States, as well as in Canada, the United Kingdom, Ireland, and other countries. National studies have proven the program's effectiveness in improving student reading ability, Paul said.

**TIME CAPSULE** - During the school year the classes of Johnna Wyte and Page Wells at Bethware School collected items for a time capsule. They included a video of activities during the year, samples of their writing, students' plans when they grow up, and other items. The classes are show ready to bury the capsule which they plan to dig up when they graduate from high school.
