**Other High Interest Savings Plans
May Seem As Good As Our
Premium Plus Account. Until You
Try Getting Access To Your Money.**

The problem with many of today's high interest savings plans is the ability you have to access your money. Or shall we say, the inability

you have to access your money.

But at Central Carolina Bank, we realize it's your money.

So the last thing we want to do is

keep you from getting to it just

because we're offering a high interest rate. On

that note, allow us to introduce our Premium Plus savings account. With a

\$20,000 minimum daily balance, you get a secure and liquid investment

with an interest rate higher than similar accounts at other major North Carolina banks. And in some

cases its interest rate—which is based on the 91-day Treasury

bill—was almost double.*

In fact, it compares favorably to

the interest rates of short-term CDs.

If you'd like an investment that's liquid, yet with a high

return, there's only one place to go. Stop by your

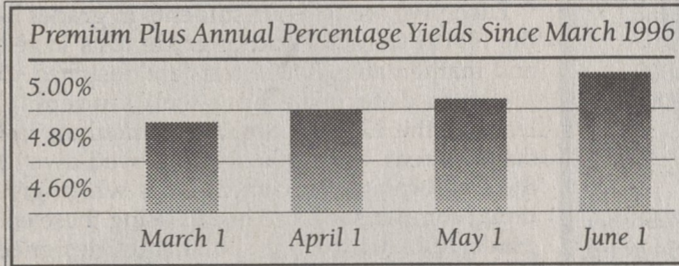

local CCB branch office.

Or call our Telebanking

Center 7 days a week at

1-800-422-2226.
