

## Business Briefs

### Hamrick renews pledge to education

Larry Hamrick Jr., CIC, of Warlick and Hamrick Associates has completed a Society of Certified Insurance Counselors (CIC) program to meet the annual continuing education requirement, thereby assuring his clients and associates that he will remain among the top one percent of all insurance professionals in America.

The Society of CIC, a vital part of The National Alliance for Insurance Education and Research, is a 29-year-old orga-

nization widely recognized as the leading continuing education program for insurance professionals. With a broad array of programs, The National Alliance's focus on providing the most practical and current curriculum available means professionals who attend and complete the programs are eminently more qualified to provide consumer insurance counseling, and have the education necessary to respond to ever-changing client needs. In short, they provide clients with the best value for their insurance and risk management dollars.

"Larry's continued participation in the CIC Program, represents a renewed pledge of knowledge and commitment, as well as superior service to his clients," stated the Society's President, Dr. William T. Hold. "This demonstrated desire for professional competence and personal improvement through advanced education serves to positively influence not just Larry's clients and customers, but the insurance community as a whole. The initials 'CIC' after a person's name is a testimony to his educational accomplishments and desire to stay at the

forefront of the insurance profession."

### Sandy Ewing earns national certification

Sandy Ewing, Activity Director at CountryTime Assisted Living Center, has been certified by the National Certification Council for Activity Professionals (NCCAP) as an Activity Director.

Certification indicates that Ewing has met or exceeded the standards of experience and education requirements set by the NCCAP. All levels of certifica-

EWING

achieved designation after his or her name.

Activity professionals are healthcare specialists who develop and lead activity pro-

gramming in nursing homes, senior centers, retirement housing, and adult day care. In 1981, activity professionals across the nation formed the National Association for Activity Professionals (NAAP). Within the next five years, NAAP fostered the creation of NCCAP as a separate, nonprofit corporation in 1986. Calls for both associations focus on the definition, improvements and promotion of quality in the activities offered to meet the needs of the elderly and persons who receive long-term care services.

Ewing, who resides in Lincolnton, has been with CountryTime for 14 months.

## CLUB

From 2-C  
the American scene with such force that it has eclipsed Arbor Day in popularity. Earth Day is trendy but Arbor Day is traditional. Ries states that "we should take more care to celebrate Arbor Day and promote the importance of trees."

Timely tips were given by Mrs. Eugene Roberts. This is a good time to trim Crepe Myrtle and cut off all the old blooms. Monkey grass should be trimmed. Feed lilac bushes with lime. Dogwood trees should be fertilized in March.

Mrs. Tom Trott, Conservation chairman, announced that two pink crepe myrtles will be planted on the back lot behind McGinnis Department Store to help with civic beautification.

The pretty flower arrangement, "As You Like It," consisted of daffodils, forsythia and Breath of Spring.

Door prizes were won by Mrs. McGinnis and Dot Ham.
