Pain may be eliminated for millions

(SPECIAL)--A drug that is exciting
researchers in the treatment of pain
has been formulated into a new prod-
uct known as "Arthur Itis," and is
being called a "Medical Miracle" by
some, in the treatment of debilitating
conditions such as arthritis, bursitis,
rheumatism, painful muscle aches,
jointaches, simple backache, bruises,
and more. Although the mechanism
of action is unclear, experiments in-
dicate that Arthur Itis, relieves pain
by first selectively attracting, and
then destroying the messenger chemi-
cal which carries pain sensations to
the brain, thus eliminating pain in
the affected area. Arthur Itis, is
available immediately without a pre-
scription in an odorless, greaseless,
non-staining cream or new roll-on
lotion form. Arthur Itis, is guaran-
teed to work or your money back.Use only as directed
