You Can Stay in the Area for Cataract Surgery... So You Can Focus on the Little Things.

Cataracts affect over 80% of our senior citizens. In fact over one million cataract surgeries are performed annually in the U.S. alone.

New technological developments in implants, ultrasonic equipment, lasers, diagnostic testing, and surgical techniques have made cataract surgery one of the most effective procedures today. Currently, over 98% of cataract patients experience significant improvements in vision, without major complications.

Complete eye care and cataract surgery is now available in King's Mountain. You don't have to travel outside your community to have cataract surgery. With Genesis Eye Center and Doctors Vision Center offering comprehensive diagnostic screenings along with local surgery and post surgical services, you now have the most advanced eye care available right here in town.

Our surgeon is Galen Grayson, M.D. He is board certified and graduated from Harvard Medical School. He performs topical anesthesia (no needle around the eye) and suturesless cataract surgery.

Affordable LASIK (laser vision correction) is also available. Call today!
