

First Day

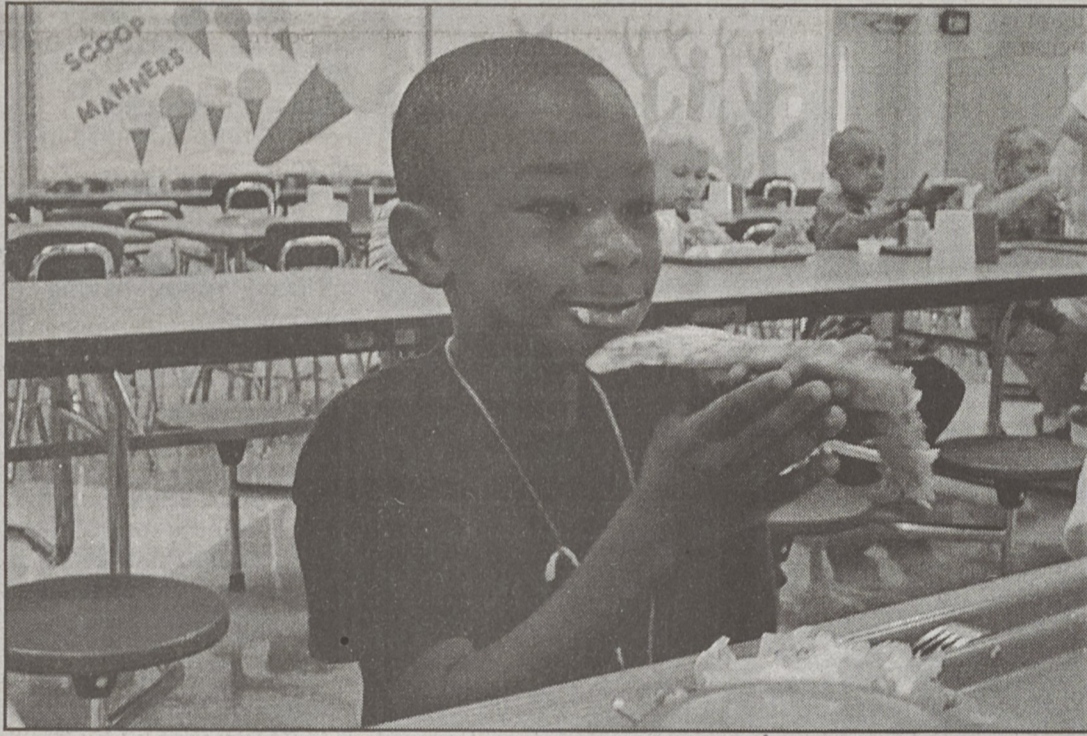

Facing the unknown can bring about a feeling of fear or excitement. Kindergarten students entering their first day of school at East Elementary seemed to be coping well Monday morning.

In photo at top left, Tatiyana Hopper enjoys coloring. Top right, teacher Penny Anthony, assistant Kaye Putnam and guidance counselor Grace Costner work on name tags for students.

In middle photos, Haley Wheaton, left, opens her milk during lunch while other kindergartners line up to go through the serving line.

In bottom photos, De/Aje Crawford, top, enjoys one of his favorites, pizza, and in bottom photo David Jackson and Jon Michael Grayson make head bands from hand wipes.
