Home Health Care Not Just For Adults

Medicine has made dramatic advances over the past few years. Many babies who would not have survived 10 to 15 years ago are now not only surviving, but thriving at home. Premature infants often have associated health problems and offer new challenges for parents and nurses. Parents require additional education and follow-up at home to care for their high-risk infants.

The special pediatric nurses of Cleveland Home Health Agency are dedicated to providing this type of infant care. Our pediatric services extend to children of all ages (birth to 18 years old) whose medical needs can be managed at home. We assist with a wide range of health problems, including diabetes, cerebral palsy, cancer, IV antibiotics, asthma, wound care, etc. A referral from the child's physician is the first step in our evaluation process.

Cleveland Home Health Agency - caring for patients of all ages, from infants to the elderly. Remember to visit our home medical equipment store at 105 T.R. Harris Drive in Shelby.
