## MOORE

From 1A

need to bring more jobs to the area. I believe we need to reform our tax code and lower taxes. I really want to continue to fight for the traditional family values," he said.

He said that he watched the votes roll in and knew pretty early with some of the precincts that the final vote would be in his favor. "With the margin of victory that we were seeing, especially in some boxes in Shelby, it was looking very encouraging," he said. "I'm very glad that I won and I've got to admit that I was very surprised with the large margin." Moore walked away with a winning vote of 9,795, beating out Democratic opponent Betsy Fonvielle by 3,474 votes and a 22 percent lead.

"Winning by over 20 points shouldn't occur in this kind of election, especially in a bad year for Republicans. I think what it shows is that we have a broad support among people in both political parties and in all backgrounds. I'm really grateful for that," he said.

Dalton started watching for

the scores in Rutherford County and saw that the margin was up. He then traveled to the Democratic headquarters in Cleveland County where he also saw that he was in the lead. He received the final scores and good news at the headquarters. In Cleveland County, Dalton beat out local Republican opponent Wes Westmoreland with 420 votes and a slight two percent difference in the total scores. He walked away with a much higher lead in his home county, Rutherford. The total there was 10,652 for Dalton and 7,441 for Wes Westmoreland (R), an 18 percent lead.

What made the difference in his campaign? "I hope it was my 10 years of hard work in the Senate and the good opinion of me among the voting populace."

Both Moore and Dalton wish to extend their appreciation to all of the voters who visited the polls to exercise their right to vote. "It is a precious right," Dalton said.

"It means a lot to me that a lot of good folks are trusting me to make the right decisions that will affect the well-being of this county," Moore said. "It's a lot of responsibility and I don't take it lightly."

"Had I known it was going to be this easy, I wouldn't have waited so long," Richard Rankin told us. A 67-year-old retired truck driver who needed to have his knee replaced. "But the folks at Gaston Memorial sure made it a lot easier."

Two weeks before the surgery we met in a class full of people. And that sure was helpful because some of the people had had

**100% OF OUR PATIENTS SAID  
THEY WOULD COME BACK. WHICH IS GOOD,  
BECAUSE MANY NEED TO HAVE THE OTHER  
HIP OR KNEE REPLACED.**

the surgery before and could tell me what to expect.

On surgery day, it was just like checking into a hotel. I had surgery that morning, rested that night, and they had me

out of bed the next morning. Before I knew it, I was in a physical therapy class with four or five others. It got a little competitive, but everybody had fun with it. Imagine having fun after knee replacement surgery. We checked out Thursday after just three days, and outpatient therapy started in my home the next week.

It's been one month and I just went shopping yesterday, and frankly, I wish I'd had the surgery sooner. In fact, I may need to have my other knee done and I won't wait so long next time. Hey, if they'd have me, I'd go back there on vacation."
