EAST

From 1A

given out to libraries of all kinds across the state. "It was a very extensive grant," he added. The school had to inventory and analyze their collection and show which subjects or areas needed to be strengthened. Then, he said, they had to come up with a plan to improve their collection, specifying the amounts needed to fix each weak area.

"Most of the books in those weak areas we're looking at ranged from 12-21 years old," he said. East Elementary has an actual book collection of about 7,200. "We're spending, typically,

about \$4,000 a year for books," he added. "So this is really a huge collection. This will be a big help to us."

A total of 630 books in the fields of Science, Health & Technology, Geography & History, and Government & Economics/Social Sciences will soon be added to the school's collection.

Another addition to the school's library repertoire, which will be donated by the Kings Mountain Historical Museum, is a book on Kings Mountain's history. "The History of Kings Mountain," written by Dave Baity (a former East Elementary student) will soon be available to nearly every student in the coun-

ty. The museum will be donating the book to each school in the district.

"I think one of the things that is very important about this county is that it has great history," said museum Director Mickey Crowell. "Sharing the history with other members of the county is essential."

She said that they also gave a copy of the book to each member of the school board. Outgoing President of the Historical

Museum committee Evelyn Hamrick initially thought of the idea for donating the books. Her husband and current President Larry Hamrick, Sr., put the thought in action.

Before their next meeting on Monday, July 23, the Board of Education will be touring the new Business and Industry Technologies Building on Phifer Road across from Kings Mountain High School at 5:30 p.m. At 7 p.m., the board will

have its meeting in Barnes Auditorium at KMHS.
