STEWARTS: The best mentors and teachers a girl could ever want

FROM Page 1

When I first started, I remember the words of advice Gary gave me: never give in to the sin of assumption; get as many kids' pictures in the paper as possible because

there are a lot of proud parents and grandparents who will want a copy; when at all possible, trump the dailies with the best coverage ever; and, remember, that some of the people who love you, will hate you, and some of the ones who hate you, will love you...it all depends on what you

had in the paper that week. God bless the Stewarts. They've been the best mentors and teachers a girl like me could ever hope for...and I'm forever grateful that they welcomed me into their school.
