HOSPITAL BEING ENLARGED

It is encouraging to know that the colored department of the Rutherford hospital is being enlarged in order to take care of the large number of patients that come there for treatment. This is as it should be. We have maintained from the start when some of our people wanted to build a complete colored hospital without first even counting the cost that the best thing to do was to enlarge the present building that we already use at the hospital.

Along with this enlargement program will of course mean new equipment and we hope better service for our patients there. We are also convinced that negro nurses serving in the colored wing will go a long way toward removing some of the suffering and inconveniences that so many of our people find there. A very prominent and outstanding man told me a few days ago that he suffered a great deal because he needed the aid of a nurse between times when they came to see them. Others have stated the same thing. Negro nurses staying in the same building with them, and there to serve them at all hours will remove much of this suffering and untold pain.

WAS GREAT HELP

All of us must admit that O. P. A. was a life saver especially for the poor people during the war, and since the war closed also. The average person would have had a hard time finding the necessary things to maintain health and comfort during the war because the wealthy people would have bought all of the scarce items up before the poor people had a chance at anything, however O. P. A. protected us. Of course those officials have made many mistakes, all human agencies do that, however it has also been a God send to, and for poor people.

What I am trying to say is, in the closing days of this once powerful government agency, when meat and lard especially became very scarce people by the thousands became even bitter, forgetting the fine work that this agency once did. Anything can outlive its usefulness and I think the O. P. A. is no exception, however we should give it praise for the fine work that it did for us all during and since the war.

to the Editor

Dear Editor: I received a copy of the Harris Herald and like the paper fine. I am sending \$1.00 for one year's subscription to The Herald. I think it is a fine paper and you shall have my full support in this worthy cause.

Mrs. Ella Mosley, of Grahamtown was painfully, but not seriously injured last week when she fell on her way home from visiting a friend and fractured her hip. At the present time she is resting very well in the Rutherford hospital.

WHAT OTHER EDITORS ARE SAYING

SCHOOL BOY'S ESSAY

I don't know how newspapers got into the world, and I don't think God does, for He never mentioned them in the Bible. Maybe the editor was one of the Fallen Angels, for he seems to fall for about everything people tell him. If the editor makes a mistake folks say he ought to be hung; if a lawyer makes a mistake he appeals his case; when a doctor makes a mistake they say nothing 'cause they don't know Latin, and they could not read his writing if they did. An editor makes a mistake, then there's lots of hollering, cussing and a libel suit, while when the doctor makes one there's a funeral, with flowers and crying. A doctor can use a word a mile long, and it won't make any difference if he knows what it means, for folks will think he's educated, while an editor has to be able to spell any word he uses. If a doctor goes to see another man's wife he charges for the visit, if the editor goes, he gets shot. People that call the doctor and get well think he's a great man. If they don't get well they're dead and can't say anything. Two-thirds of the folks in town are sore at the editor all the time, either because the paper said something about them they don't like or said something nice about somebody else. —Belleville, (Kan.) WASHINGTON

NEWS LETTER

THE NEWS BEHIND THE NEWS

PAUL MALLON

Washington — The headlines speak of peace as if it were around some corner somewhere, and might be discovered if we could find a way to it—although actually in distance, it is far off, vaguely unplaced, and is not yet discernible. The technique of the situation is this: The five peace treaties, still in dispute, are not on the agenda of the 52 nations meeting in assembly for their first real opening session Wednesday. This meeting is concerned with some admissions, a site, and routine organizational problems. What the session really means is that 31 more small nations, mostly those of Latin America (not in the war) are coming into the peace picture.

Now Mr. Byrnes, the state secretary, once said he would take his stalemate problem on the unfinished treaties to this whole world assembly of nations, if stalemate persists. Frankly he expects it to persist. His speech upon his return from the 21 nations in Paris (the nations in the war) was detected by close watchers to be somewhat pessimistic.

Mr. Byrnes came back from the arduous session in Paris, looking chipper, younger in fact than when he left. But his speech was not chipper. He rather indicated between the lines he expected Russia would veto the idea of a free trading Danube, for instance—and how could he then go ahead and make a separate peace with Russia-dominated Rumania, for a free Danube, when Russia would make a treaty with Rumania for a closed Danube. This veto he expected to be lodged at the coming New York session of the Big Four council of ministers, because Molotov did not listen to his radio speech, but sent underlings to hear the radio, and stood his ground presented at Paris. Mr. Byrnes had some hope Russia would realize the world did not like her way, and would change her position—but not much.

Even if she did, peace is yet far distant. The treaties would have to be ratified by our senate, after debate, and any moderation of principle would be interminably resisted. If Russia gave in, the treaties would hang fire perhaps a year. As matters stand, peace rests only with the "attitude" of Russia, and an attitude is an intangible factor. So peace actually is not around the next corner, or any corner yet in sight.

Some flurries of apprehension were noticed in certain naval quarters simultaneously with the Byrnes speech, and with the Russian move upon the Dardanelles (to say nothing of the unreasonable attitude of Tito.) At least one naval authority has been suspecting a break might occur in the military (not diplomatic) situation at any time. Yet the continuing truth is Russia is in no condition for military action and would not be able to sustain more than a limited military campaign for a brief period. Military action is not expected.

The only new development tossed into assembly meeting, before it started, was the program laid down for foreign policy by the federal council of churches. No official here rushed to comment upon it. The attitude of the Byrnes people around the state department has been that nothing should be said of a religious nature just now, certainly not involving any clerical hopes, as the recent movement for christian solidarity has shown firm substance behind the Byrnes policy. Particularly few wished to ques-

tion this new church advice, inasmuch as it set down the level-headed realities of the basic condition, namely: "Maxist communism in its orthodox philosophy stands clearly opposed to christianity. It is atheistic in its conception of ultimate reality and materialistic in its view of man and his destiny"—and the statement defended the necessity of maintaining man's "individual human personality." These words stood as a bulwark to the Byrnes policy.

our church at Henrietta, is getting along fine. The rally will close there on Oct. 27. Come out on that date and help us. Our ruling Elder Rev. G. F. Boyd will be at Henrietta church to his quarterly meeting Oct. 23, and at St. Luke on Oct. 14. Come out and be with us and hear this man of God for he is a good speaker.

for memberships of men and women of all races, without discrimination.

It may be unfortunate that some church organizations set apart and supported by Negroes have names that seem to bespeak race segregation, but despite this, there is perhaps no recognized church anywhere among us that would think of refusing membership to a man or woman of any race.

Dr. Reissig of Washington Church Federation is quoted as saying, that he does not believe that Negroes want to attend and join white churches. Perhaps not, and possibly they would not any more than Japanese or Chinese want to attend or join white churches but, no Negro, Japanese

Its a common feeling among Negroes, that they find more fellowship and brotherhood at a ball park or race track than they find at the average so called (white) Church of Jesus Christ; more power to the social agencies and the Church Federation of Washington, in their gesture for more real Christian Fellowship and Brotherhood in Washington churches.
