 Vinegar  
 Catsup  
 Tartar Sauce

BIG EATERS  
 Dairy cows require a  
 tremendous amount of food  
 to produce large amounts  
 of milk. The "average"  
 cow in the top North Carolina  
 dairy herds consumes  
 18,800 pounds of silage,  
 1,100 pounds of hay and  
 5,400 pounds of grain a year.  
 In addition, she grazes about  
 128 days. From this, she  
 manufactures 12,843 pounds  
 of milk and 481 pounds of  
 butterfat.

There's much dancing  
 (ballet) and singing. At  
 times the musical background  
 is overpowering-but, as a  
 whole, Tevye sings with  
 ease and clarity.  
 It's rated "G"--all ages  
 admitted, and the film runs  
 about two hours.

THE WORLD OF  
 ENTERTAINMENT

**FIDDLER ON THE ROOF**

The film version of "Fiddler On The Roof" will have to go some to outdo the Broadway Musical which had a seven-year run.

The story takes place in the small Russian village of Anatevka. The main characters are Tevye, a poor dairyman, his wife, Golde, and their five daughters. Due to their meager circumstances, Tevye (Topol) is grieved that his daughters may not find suitable husbands because he is unable to provide a proper dowery for them. This is of great concern during the pre-revolutionary Russian days in the early 1900's.

No sensible person will permit a partisan to unduly influence his thinking. Most people can stand tragedy but few can master the small irritations of life.

Don't let cold symptoms get you in hot water. If ignored, you could develop a serious infection. Rest in bed, drink plenty of liquids, and take approved remedies.

If you do not improve in a reasonable time, call your doctor.
