

Bystanders view the wreckage of the 1966 Dodge and 1972 Pathfinder Camper it was pulling along I-85 Friday afternoon when it wrecked. The mishap occurred on I-85 1.6 miles south from Kings Mountain between 161 and 216 about 5:00 p. m. Trooper R. B. Burnette of the State Highway Patrol investigated the wreck and reported that Joy Keller Tredinnick, 36, of 6030 Blairmore Street in Fayetteville was traveling north on 85 when a tractor trailer passed the car at a high rate of speed. The driver and three witnesses stated that the wind from the big rig caused Joy Tredinnick to lose control of the

car and hit the right guard rail. The car then swerved across the highway and hit the left rail. The camper came uncoupled and landed some distance from the vehicle. Damages to the car was \$1000 and \$5000 damage was done to the camper. One passenger, Elizabeth C. Fox also of Fayetteville was injured in the wreck and taken to Kings Mountain Hospital. One witness reportedly chased the driver of the tractor trailer and informed him of the accident but he did not return to the scene. Joy Tredinnick is pictured left talking with a man at the guard rail. (Photo by Lem Lynch)

Eating spaghetti can be messy, but this is ridiculous! And it's one of the hilarious moments in "George," a new family comedy from Capital Productions. Marshall Thompson stars, with the title role played by a loveable 250-pound St. Bernard who sulks in bathtubs, likes pigs and suffers from a fear of heights. On the merit of his acting debut, the thoroughbred Saint has been signed by producer-star Thompson to a TV series based on their further Swiss adventures. The series is in production now. "George" the movie opens Monday at the Joy Theater.

## TV COMMENTARY

By John Smiley

FOR THOSE who have forgotten just how tough things were during depression years, "The Waitons" will jar loose painful memories. This family drama reminds one how scarce money was in the good old days. The show is seen on Saturdays.

CHILLING TALES are abundantly available for those who enjoy teasing their skin with goosebumps. To list some programs for the chillbump set: "Sixth Sense," "Night Gallery," "Ghost Story," and "Thriller." An occasional scream tickling movie is thrown in by networks for good measure.

AFTER 19 YEARS ON TV, Walt Disney studio begins another season. It is not a mere cliché that quality endures. At least, not in this case. The "World of Disney" is good entertainment.

ALAS, in the same token many good shows have landed in the airways boot hill, while some quite sorry, black hatted ones still invade our family den. Too bad we watch the sorry ones anyway.

## The 1973 Volkswagen is still \$1999.\*

## A bargain is a bargain.

While you can see the new 1973 Beetle is still at a nice low price, you really can't begin to see the value until you know what you're getting for your money.

A warranty, for instance, that's twice what you get with any other small car: 24 months or 24,000 miles.\*\*

But then, we wouldn't be offering it if it weren't for our incredibly finicky factory inspection: over 1100 inspectors poring over more than 5,000 parts. It sounds compulsive, but it's the best way to reach perfection.

And now, there's our new VW Computer Diagnosis system. Meaning literally what it

says: a brand new computer that's been installed, or soon will be, in our service area ready to be hooked up to your car. The most advanced service system in the world, it checks vital service parts, via sensors and probes built into critical areas, and spells the results out in plain English. People should have it so good.

Consider also our legendary resale value. When you compare it with other cars after three years, it makes our \$1999\* sound absolutely amazing.†

Everything adding up to one important point: there's a big difference between being cheap, and being a bargain.

Few things in life work as well as a Volkswagen.

\*1973 Volkswagen Sedan III suggested retail price. P.O.E. local taxes and other dealer charges, if any, additional. \*\*An owner maintains and services his vehicle in accordance with the Volkswagen maintenance schedule any factory part found to be defective in material or workmanship within 24 months or 24,000 miles, whichever comes first (except normal wear and tear and service items) will be repaired or replaced by any U.S. or Canadian Volkswagen Dealer. And this will be done free of charge.
