KMCC Sets Invitational

The first annual Kings Mountain Country Club Invitational golf tournament has been scheduled for May 31-

The field is being limited to the first 180 applicants and is expected to become one of the top golf events in the area. The tournament is open to area amateur golfers. It will be a 36-hole, medal play event with golfers being flighted for the final 18 holes on the basis of their first round scores.

Over \$2,000 in prizes will be up for grabs. Entry fee is \$25 and that will include green fees, two meal tickets and one practice round the week prior to the tournament. Rental carts will also be available at an additional fee.

Entry forms and fees are to be sent to Mickey Powers, 44 North Roxford Road, Kings Mountain 28086. Powers, the tournament chairman, predicts a tough field. "Many of the golfers will be men who have been participating in our members' guest, which has a reputation as one of the best in the Carolinas," Powers remarked. Powers says there's a good chance the course records will fall during the event. The current course record is 69 for the 6,491 yard layout. The best ball record in the membership is 67.

Klepper Scores Hole In.....?

When's a hole-in-one not a hole-in-one?

George Klepper can tell you. Klepper found out the hard way Saturday at Kings Mountain Country Club.

He teed his ball up on the par three, 205-yard 17th hole but hit it out of bounds.

Klepper took a penalty stroke, teed up again and hit the ball in the hole.

Thus, this count: One for out of bounds, two for the penalty, and three in the cup.

Tough luck, but Klepper did achieve a feat as only two other persons in the history of the club have been able to ace the hole. Those men were Raymond Hook and Tippy Francis.

Weekly Health Tip
By Wilson Griffin
The air inside most houses is probably as polluted as the air outside, says a report in Modern Medicine. Outside air gets inside the home. To it is added the smoke and fumes of cooking and heating appliances, chlorine escapes from boiling water, and now we have the added host of chemicals from spray cans - cleaners, deodorants, hair sprays, lacquers, bleaches, pesticides, and air "fresheners". The lacquers and waxes can coat the lungs just as they coat other surfaces. It poses the question - do the many convenience sprays improve the quality of living more than they endanger health?
