**What Is Centrifugal Force?**

What is centrifugal force? In Genesis 2:10-14 we read about four underground rivers that started in Eden-Paradise; and flowed through the shell of the earth. These four rivers; the Pison, Gihon, Tigris and Euphrates, flowed up as it were, and became four great springs on Earth. That is they became the heads of the same four rivers on earth.

Here are two reasons why these four rivers did not flow up hill, as it were. (1) Apart from the pull of gravity, there is no such thing as up or down, and (2) Centrifugal force is gravity "push" not "pull".

Centrifugal force is a force whose direction is away from the center. (Web. Dic.). For instance fill a bucket with water or tie a weight to a card and begin to whirl it round and round. The weight will pull away from the center. Or throw a basketball with a small object within. That object will fall away from the center and cling to the ball.

As the earth turns at the rate of 1000 miles an hour the centrifugal force caused those underground rivers to flow from the inside of the earth toward the outside. And that force will even cause water to flow to the top of the very highest mountain. Isa. 30:25.

Four Rivers from Paradise: "The Lord (Jesus Christ) planted a (little) garden in Eden (the entire hollow earth). There He put Adam whom He had formed...And a river went out of Eden to water the (little) garden, and (then) that river was parted and became...four heads" Gen. 2:7-10. That is one great river in Eden became four rivers flowing from inside the earth to the outside.

"The name of the first river is Pison which compassed the Whole land of Havilah" Gen. 2:11. Havilah was three regions east of Palestine. (See Strongs Concordance)

"The name of the second river is Gihon...that compasses the whole land of Ethiopia" Gen. 2:13. This one is called "the river from Paradise".

"The name of the third river is Hiddekel (or Tigris)...and the fourth river is Euphrates" Gen. 2:14.

These four underground rivers came from one great river inside the earth. Each flowed through the crust of the earth. Each one became a great spring or the head of the Pison the Gihon the Tigris and the Euphrates rivers Gen. 2:10.

The Famous Gihon Spring. The Gihon underground river came out of the ground in the Kidron Valley near Jerusalem, 2 Chr. 32:30. It was called the River from Paradise. See Strongs Concordance No. 1516-1518-1521. That is it came from the Eden Paradise inside the earth. This same Gihon river continued above ground and watered the land of Ethiopia Gen.

In the book of Jasher we read "In the days of Enos, idolatry was set up...and (many) forsook the Lord God. The Lord caused the river Gihon to overwhelm the idolators and He destroyed (them)."

This was over 1000 years before the great flood Jasher 1:16.

The Book of Jasher is available at the Learning Center, 1001 Cleveland Ave. Kings Mtn.

Recently while I was in Jerusalem, I visited this Gihon spring. Not much water was springing up but I could hear the roar of an underground river.
