**I THINK**

By Harold Lineberger  
Candidate For  
Kings Mountain  
Board of  
Education

School board meetings are required by law to be open to the public. Most Kings Mountain folks, however, choose not to attend unless a school situation arises that affects them personally. This system works very well for us, because we have here a free and unbiased press. You can be sure that everything that happens at a board meeting will be reported accurately and completely in The Herald. The editors deserve a word of praise for their coverage of school news. I think we as parents and taxpayers should be interested in the business that is transacted at school board meetings. Whether we attend in person or read the newspaper account makes little difference.
