In December of 1978 our bookkeeping department sent a bill to an advertiser in Lavergne, Tennessee. We never heard a word and never received our money, but alas, it was returned Friday marked "return to sender." That's 10 months later. It just goes to show you that neither rain, sleet, snow or time will stop the U.S. mail.

Jerry King was in the other day and told me this interesting story: The kid of a friend needed \$100. After several attempts to con it out of his parents failed, he decided to go straight to the top. So he wrote a letter to God expressing his need and requesting assistance. Upon receiving the letter, the post office was faced with the dilemma as to what to do with the letter. Finally they elected to send it to the next best thing, the President. Upon receiving the letter President Carter felt sorry for the child and returned a letter with \$5.00 enclosed. A few days later the post office received another letter that read...Dear God. I appreciate the money that you sent to me...however, it came by the way of Washington and those rascals took 95 percent of it. How about next time sending it directly to me.

I was sitting around Tuesday evening talking with Bill Sellers and Stoney Jackson. Larry Dunn walked up with his warm-up suit on and allowed that he had just come from the new gym down town and had been working out. I asked Larry what kind of equipment the gym had and he said "man they have it all...something for your chest, belly, legs etc.Being in the shape I'm in,I thought I would ask Larry if they had anything in the new gym that would help me out. I asked the question and got this reply from Larry ... "Big D, they do have something in the back for you, it's a shop where you can build your own

Speaking of Caskets: A few years back some pallbearers were carrying a man's casket up the Baptist church in downtown Kings Mountain. It was in the dead of winter and the steps and streets were slick with ice. The pallbearers lost grip of the casket and it went down the steps, hit the curb, slid down Mountain street, bounced off a car and into Griffin's Drug Store and all the way back to the prescription department. Wilson Griffin was astounded when the lid of the casket popped open and the man raised up and said, '.'hey Wilson, how 'bout giving me something to stop this

In last Tuesday's paper we had a photo on the front page of the Kings Mountain Chapter of the N.C. Symphony. In identifying the people in the photo we failed to identify John Warlick. Sorry about that
