## Solar Energy Class Set

The interest in solar energy as a source of heating new homes is gaining momentum. Cleveland Technical College is offering solar energy as a scheduled course during the summer quarter.

Solar energy is a four hour curriculum course scheduled for summer quarter (July 9-September 24, 1980) on Monday evenings from 6-10 p.m. and on Tuesday morning from 8 a.m. - 12 noon.

Persons interested in solar energy are encouraged to register for this course during Tech's registration slated for Monday, July 7 from 9 a.m. - 9 p.m. The cost of this course, for in-state persons taking only solar energy is \$15.00. A book is available in the bookstore for \$27.75. New students registering for solar energy are requested to fill out an application through Student Services Department as a special student.

Solar Energy (ENV 106) is a study of the practical application of solar energy. It includes the study of active and passive solar applications, heat storage, heat loss calculations, hot water heating, and space heating using water or hot air. Flat plate concentrating collectors and the generation of electricity using solar cells are also studied.

Additional information is available by calling Cleveland Tech, 482-8351.
