 That's right! Come shop at Key Warehouse Foods. Then, compare us with any other store, total for total, and see for yourself which store saves you more. If the total from the other store is the same or less than your Key total, we'll double the difference.  
 Bring us your shopping list and your Key Tape Total, and tell us where you compared prices. All we ask is that your shopping list be what is considered your "weekly" food needs purchased during a regular major shopping trip, with a minimum order of \$20.00 and 25 or more different items.
