Crafts Class Is Big Success

Eight residents of Kings Mountain Convalescent Center have recently completed a Recreational Therapy Class sponsored by Cleveland Tech and conducted by Mrs. Ruth Gamble.

The students in the Skills Nursing Facility and Intermediate Care Facility presented one of the first products of the class, a yarn dog, to Mrs. Flay Payne, administrator of the facility last

Thursday. The beautifully-constructed dogs are in a variety of colors and will be offered for sale at \$8 each by the residents who also expect to display and offer other products at a Halloween bazaar this Fall.

Mrs. Gamble has also led exercise classes, music therapy, and led discussions of Bible stories and current events to those patients unable to participate in the crafts class.

Mrs. Rebecca Lane, a member of the class, made the special surprise presentation to Mrs. Payne Thursday afternoon and expressed appreciation to Mrs. Gamble for her leadership. Class members dressed up in long dresses and wore hats for the activity which featured the slicing of watermelon donated by Mrs. Gamble. The party was held on the patio of the nursing facility on Sipe St.

Activity co-coordinators at the facility are Mrs. Carolyn Bell and Mrs. Faye Barbee, both of whom were present and assisted in the festivities.

The Continuing Education Class is taught two hours in the mornings and two hours in the afternoons four days a week at the facility. Mrs. Gamble recently joined KMCC as a volunteer and began the recreational therapy instruction several weeks ago.

Where's the smart money going these days?

In today's unstable economic environment, many people seem to be in the dark about what to do with their money.

We'd like to shed a little light on that subject.

Save. It's the smart thing to do today.

Today, no matter what other investments they may make, most Americans tend to agree on one point: *it's important to have a healthy savings fund.* And while there's no single savings plan that's ideal for everyone, there are a number of factors you'd be wise to consider when choosing yours.

Like the interest rate, for instance. At Independence National Bank, we pay the top bank interest rates allowed by law.

Nine ways you can save.

Interest rates are important. But they're not all-important. You also want flexibility. You need a savings plan that can change with your changing requirements.

Independence can fill this need, too, with one of nine different savings plans. Each plan has features to fit your individual savings goals.

At Independence, you get the flexi-

bility that you and your family need.

Security is part of the plan.

Unlike many investments, an Independence savings plan comes with built-in security. All of our plans are insured up to \$100,000 by the Federal Deposit Insurance Corporation. And that's insurance you can depend on.

Which leaves one final point to consider when you're choosing a place to save.

Professional advice. You can't put a price tag on it.

You deserve professional advice. Advice you can trust about how to make your money work its hardest in today's confusing economy. At Independence, we have professional bankers who have the answers.

Rate. Flexibility. Security. Professional advice. That's why you should talk with an Independence National professional banker.

And find out where the smart money is going these days.
