

## Tax Forms Are In Mail

Households throughout the country will begin receiving 1980 income tax packages from the Internal Revenue Service starting Dec. 26, Kings Mountain Postmaster Fred Weaver said. Most post offices have already received the packages and will hold them for distribution until the day after Christmas, as requested by IRS. "The only ex-

ception for earlier delivery are packages going to certain business firms and tax service agencies," he said. Postmaster Weaver noted that while the packages travel as third-class mail, "they are forwarded without charge to the recipient if such service is necessary." The Postal Service will recover any forwarding

charges from the Internal Revenue Service through a pre-arranged agreement. The tax

forms are delivered to some 86 million households across the country, the postmaster said.
