

Night College Program Begins

Sacred Heart's Night College program will soon begin its ninth term of quality education for working adults. Sacred Heart is now receiving applications for Night College sessions beginning in March, May and August. Registration for the March term will be held March 12 and classes will begin at 6 p.m. on March 16.

Sacred Heart's Night College program is designed to meet the

educational needs of working persons who wish to earn a college degree while maintaining a full-time job. The Night College offers persons 22 years of age or older an opportunity to receive a high quality education for career change, career advancement and/or personal enrichment. Night College students may take two courses each eight week session and are considered full-time students. Financial aid is available from a variety of sources so that no person should be denied this unique educational opportunity for lack of funds. Sacred Heart's Financial Aid office will be glad to discuss the many types of aid available to college students.

According to Elaine Sipe, Dean of the Night College, "Sacred Heart College believes in life-long learning and is committed to serving the educational needs of adults from 18 to 80 or over. Many persons in our community had to forgo a college education immediately after high school but now find that for advancement in their career, change of careers or for personal reasons they would like to earn a degree. Sacred Heart's Night College program is designed for these people."
