GLEN HAMPTON

Carmet Promotes Hampton

Glen J. Hampton has been named maintenance foreman for Carmet Company's Minetool division, a member of Allegheny International, Inc. (formerly Allegheny Ludlum Industries). Joining Carmet Minetool in 1977, Hampton had most recently been a maintenance group leader with the company.

A graduate of Gaston College with a degree in business administration, Hampton is married to the former Sherry Cook of Dallas, and is the father of two children.

Carmet Minetool is a major supplier of mining and construction tools.

Pathologist Service

Accredited

The pathology service at the King Mountain Hospital, Inc. was awarded a certificate of accreditation this week by the College of American Pathologists, a medical specialty organization of more than 8,500 pathologists.

President of the College, Lawrence J. McCormack, MD, stated that the laboratory received its certification from the College's Commission on Laboratory Accreditation. The laboratory has successfully met the College's standards for laboratory performance, determined from the results of an intensive, on-site inspection by a volunteer pathologist inspector from the College. An on-site inspection is carried out every two years, with an interim self-inspection and constant monitoring of the laboratory's proficiency test results.

"This accreditation," emphasized Dr. McCormack, "reflects credit to the institution and assures patients and physicians of the continuing accuracy and precision of the laboratory's services."

The Laboratory Accreditation Program of the College is recognized as one of the most outstanding medical peer evaluation systems in the world. Its goal is to promote the best possible laboratory performance via a program which examines and evaluates all phases of a laboratory's operation.
