Ragan Harper

Ragan Harper, Kay Plumley, Margaret Ramsey (Your Pharmacists)

She didn't read the label
 She thought, "Why call my busy doctor about such a trivial question as two common, over-the-counter drugs?"

She almost dies! The case in point could happen to you. The problem is mixing two or more incompatible drugs such as Contac, Allrest, or Coricidin D with common diet-aid formulas containing the ingredient PPA (phenylpropanolamine). Such combinations can cause elevated blood pressure, headache, palpitations, dizziness, nausea, and chest tightness.

Solution: Always read label information carefully. And don't hesitate to ask your personal pharmacist questions when buying OTC remedies.

The Exemption To The Rule.

First Union's New Tax-Exempt C.D.

That's exactly what the new one-year Tax-Exempt All-Savers Certificate of Deposit is all about. It allows you a cumulative exclusion of up to \$2,000 interest on a joint Federal income tax return or \$1,000 interest on an individual return, subject to IRS and state tax regulations.

The Tax-Exempt All-Savers Certificate will have an annual investment yield to maturity equal to 70% of the average investment yield to maturity for the most recent auction of 52-week U.S. Treasury Bills. And the minimum deposit is only \$500. Of course, deposits are insured up to \$100,000 by the FDIC.

First Union is now offering the new Tax-Exempt All-Savers C.D. So don't wait to take advantage of the exemption to the rule. Because it's an exceptional way to save.

TAX-EXEMPT ALL-SAVERS CERTIFICATE ANNUAL INVESTMENT YIELD.

10.77%
 Available through November 28, 1981

ANNUAL INTEREST RATE.

10.23%

The following chart illustrates approximate tax-equivalent yields for different income-bracket tax rates of the Tax-Exempt All-Savers Certificate at the current annual investment yield to maturity:

Marginal Income Tax Rate (Married, Filing Joint)	Tax-Equivalent Yields
21%	13.63%
32%	15.84%
49%	21.98%

Member FDIC

If a depositor elects to withdraw interest on a periodic basis prior to maturity, the effective yield to the depositor of the All-Savers Certificate will be lowered. There will be a substantial penalty for early withdrawal including loss of tax-exempt status. Tax-exempt status will also be lost if the certificate is used as collateral. The annual investment yield of the All-Savers Certificate will change periodically; however, the yield in effect on the date of purchase of an All-Savers Certificate will apply during the full one-year term of that certificate. All-Savers Certificates will be issued through December 31, 1982.
