Shimmering with CreScendo
A new colouring service that brings an exciting extra dimension to creative hair colour.

The colour can be as gentle or as dramatic as you like. Your hairdresser will guide you but ultimately the choice is yours.

□ Add colour just to the tips of layered hair. It will emphasise the style and strengthen the total look. Next time you have it cut the tips will be gone, so you can change the shade.

□ Give definition to a mousey colour by brightening the meshes which frame the face. See yourself come alive.

□ Bring light and shade to hair that is all one length by colouring fine strands of hair from root to tip with a lighter or warmer shade.

□ Add a flash of colour at the temples if you wear shortish hair brushed back from the face. It gives a dramatic note to your basic cut.

□ Achieve a 'kissed by the sun' effect that lightens, shines and gives your hair a lift.
