KNIGHTDALE - Miss Orlessa Wiggers, 16, died instantly from a 12-gauge shotgun blast in the stomach last Saturday and Assistant Coroner T. S. Rhodes ruled the death a suicide.

A resident of Raute 1, Knightdale, the dead girl, apparently used a fire poker to trigger the gun, Rhodes said. She was student at the Shepard High School, Zebulen.

The suicide took place in the living room of the Wiggers home about 10:30 a. m. Both parents were away from the home at the time The father, Walter Wiggers, is a

an opportunity to state their views both pro and con on Senate Bill 113 (HB 248) concerning illegimate children at a public hearing before a joint-committee of the Senate and Mouse Public Welfare Committee in the auditorium of the Highway Building

The bill itself is a proposal, introduced by Senators Simp kins, Winslow, Ross, Jolly, Thomas, Hamilton, Frink, Crew. Shelton, Garrison, and Bason. Jolly allegedly admitted that the bill was aimed primarily at colored women.

The Controversial Senate Bill 113 (HB 248) would have a local welfare department petition the State take the woman directly before the Eugenics Board for sertilization of Board, where the mother would the mother when she gives birth have to show cause why she should to a second illegitimate child. The mother would be ad-

Alexander Barnes, well-known newsman and AMEZ Church representative said. "NC cannot afford to propose or consider enactment of class legislation."

A third illegitimate child would not be sterilized. Again, she would have the right to appeal to the courts.

J. J. Sansom, an official of Mechanics and Farmers Ban said, "The sterilization of women is not the answer, but equal opportunity for Negroes would solve the problem." Chief arguments against the pas-
