Welfare's Checks To

About 65,000 aged or disabled North Carolinians learned this week that their welfare checks will be trimmed in the next few

posal to reduce the size of the checks because the programs were exceding appropriations.

The action means that instead of receiving 80 per cent of their financial needs from the state disabled persons will get only 75 per cent. Grants to the aged will be reduced from 85 to 80 per cent of need. Need, in these cases, is figured by subtracting an individual's income from the amount it takes to feed, clothe and shelter him.

The budget commission, in apchecks will still be slighlty larger than they were druing the 1958-89 fiscal year.
