Attorney Charges Breaking Of Faith:

Top Zion Bishop Accused

Bishop W. J. Walls Target Of Faith-Breaking Charges

CHICAGO, Ill. — Attorney George Lawrence, who was one of the leaders of the 36th general conference, AME Zion Church that went to grips with the Board of Bishops on creating a Judicial Council accused Bishop W. J. Walls of breaking faith with the agreement made at the recent session.

After much discussion of the issue, it is said that an agreement was made with the bishops that if the delegates would agree to have the matter referred to the annual conference for ratification that the bishops would not use their influence to defeat the measure. Attorney Lawrence says that not only did Bishop Walls violate this agreement, but that the prelate has used his high office to defeat the measure when it has been brought to vote in annual conferences.

The lawyer charged that Bishop Walls is known to have taken the floor in both of the sessions that he has held since the quadrennial meet and not only talked against the Council, but has vilified those who supported the measure. He substantiated this by the fact that the measure was voted down in both of the meetings—the Western New York and the
