

Elenenth In A Series:

Constitution Of North Carolina

Editor's Note: This is the eleventh in a series of articles containing the Constitution of North Carolina. The CAROLINIAN will in the weeks to follow, publish the Constitution in its entirety.

ARTICLE IV (Continued)
Judicial Department

Section 21. Elections, terms of office, etc., of Justices of the Supreme and Judges of the Superior Courts. The Justices of the Supreme Court shall be elected by the qualified voters of the State, as is provided for the election of members of the General Assembly. They shall hold their offices for eight years. The judges of the Superior Courts, elected at the first election under this amendment, shall be elected in like manner as is provided for Justices of the Supreme Court, and shall hold their office for eight years. The General Assembly may, from time to time, provide by law that the judges of the Superior Courts, chosen at succeeding elections, instead of being elected by the voters of the whole State, as is herein provided for, shall be elected by the voters of their respective districts.

Sec. 22. Transaction of business in the Superior Courts. The Superior Courts shall be, at all times, open for the transaction of all business within their jurisdiction, except the trial of issues of fact requiring a jury.

Sec. 23. Solicitors and Solicitorial Districts. The State shall be divided into twenty-one solicitorial districts, for each of which a solicitor shall be chosen by the qualified voters thereof, as is prescribed for members of the General Assembly, who shall hold office for the term of four years, and prosecute on behalf of the State in all criminal actions in the Superior Courts, and advise the officers of justice in his district. But the General Assembly may reduce or increase the number of solicitorial districts, which need not correspond to, or be the same as, the judicial districts of the State.

Sec. 24. Sheriffs and Coroners. In each county a sheriff and a coroner shall be elected by the qualified voters thereof as is prescribed for the members of the General Assembly, and shall hold their offices for a period of four years. In each township there shall be a constable elected in like manner by the voters thereof, who shall hold his office for a period of two years. When there is no coroner in a county the Clerk of the Superior Court for the county may appoint one for special cases. In case of a vacancy existing for any cause in any of the offices created by this section the commissioners of the county may appoint to such office for the unexpired term.

Sec. 25. Vacancies. All vacancies occurring

in the offices provided for by this Article of the Constitution shall be filled by the appointment of the Governor, unless otherwise provided for, and the appointees shall hold their places until the next regular election for members of the General Assembly that is held more than 30 days after such vacancy occurs, when elections shall be held to fill such offices. Provided, that when the unexpired term of any of the offices named in this Article of the Constitution in which such vacancy has occurred, and in which it is herein provided that the Governor shall fill the vacancy, expires on the first day of January succeeding the next General Election, the Governor shall appoint to fill said vacancy for the unexpired term of said office. If any person elected or appointed to any of said offices, shall neglect and fail to qualify, such offices shall be appointed to, held and filled as provided in case of vacancies occurring therein. All incumbents of said offices shall hold until their successors are qualified.

Sec. 26. Terms of office of first officers. The officers elected at the first election held under this Constitution shall hold their offices for the terms prescribed for them respectively, next ensuing after the next regular election for members of the General Assembly. But their terms shall begin upon the approval of this Constitution by the Congress of the United States.

Sec. 27. Jurisdiction of justices of the peace. The several justices of the peace shall have jurisdiction, under such regulations as the General Assembly shall prescribe, of civil actions, founded on contract, where in the sum demanded shall not exceed two hundred dollars, and of all criminal matters arising within their counties where the punishment cannot exceed a fine of fifty dollars or imprisonment for thirty days. And the General Assembly may give to the justices of the peace jurisdiction of other civil actions wherein the value of the property in controversy does not exceed fifty dollars. When an issue of fact shall be joined before a justice, on demand of either party thereto he shall cause a jury of six men to be summoned, who shall try the same. The party against whom the judgment shall be rendered in any civil action may appeal to the Superior Court from the same. In all cases of criminal nature the party against whom the judgment is given may appeal to the Superior Court, where the matter shall be heard anew. In all cases brought before a justice, he shall make a record of the proceedings, and file the same with the clerk of the Superior Court for his county.

(CONTINUED NEXT WEEK)

HINTS TO HOMEMAKERS

MILDEW HINTS — A chemical that absorbs moisture — Silica gel. It is sold in department stores and drug stores and by building supply dealers, sometimes under various trade names. Silica gel is not harmful to fabrics. The porous granules remain dry feeling when saturated—hold half their weight in water.

To use, hang cloth bags of the chemical in clothing closets, basements, pantries, or wherever dampness occurs. Or, place an open container of it in the closet—on a shelf preferably, or on the floor.

Keep closet doors closed so that moisture from outside air will not get in. You may scatter the dry granules through layers of clothing and other articles that are to be stored in tightly closed chests or trunks.

Silica gel can be used over and over, if dried between times. To dry, simply place moist granules in a vented oven at 300 degrees F for several hours. Then put in an airtight box and cool before re-using. Silica gel specially treated with a color indicator is pink when full of moisture, blue when dry.

Halfback Willie Galimore Signs Contract With Bears

CHICAGO (ANP) — Halfback Willie Galimore, one of the most feared runners in the National Football League in '56, has signed his 1960 contract with the Chicago Bears of the Western Division, Coach George Halas of the Bears announced gleefully.

In addition to Galimore, form Florida A and M who, the Bears also signed fullback Rick Casares, a regular and top ground gainer for the Bears last season. Happy eyes having snared the two standouts, Halas said Galimore and Casares would give the Bears the "most devastating one-two running punch in professional football."

According to Halas, Willie has fully recovered from the leg ailments which hobbled him through most of last season and "... will travel at full speed again."

Helpful Hints To Gardeners

Crape-myrtles are blooming in Raleigh and they are beautiful. They add much color to the landscape in summer and the stems and trunks are attractive during the winter season.

This plant should be used more extensively in beautifying our homes, parks and highways — in adapted areas of the state.

The plant is comparatively easy to grow—if you control aphids and mildew. The aphid is a sucking insect and requires a contact poison. Mildew is a fungus disease which attacks the leaves, causing a whitish appearance similar to mildew around the house or on old clothing. A fungicide, such as sulphur, is used for control.

To simplify control, use all-purpose rose dust or spray. I prefer the spray treatment because I think you get better results. Whether you use spray or dust, be sure to do a good

job of covering both sides of the leaves. You will not control the aphids unless you do this.

The all-purpose rose formulation combines materials which will control both insects and diseases — usually sulphur, Ferbam (Fermate), DDT and Lindane.

Dusting sulphur alone is best for controlling mildew, but its use (alone) is hazardous during hot weather because it may burn the foliage.

Can living ornamental plants be treated for nematodes? Yes, by drenching with Nemacon.

Clear an area two by five feet in diameter around the plant, depending upon the size. Build a small dike to contain the drench water. Mix one teaspoon of Nemacon in one to two gallons of water and pour around the plant. Follow with one gallon of clear water. The optimum soil temperature

for this drench treatment is between 50 degrees and 80 degrees F.

Argentina has started shipping high-quality beef cuts packed in dry ice to Switzerland by air.

About 200 acres of aromatic tobacco are grown in North Carolina.
