THE NAACP 'COLLEGE' GRADUATES PROMOTED

ROCKY MOUNT — More and more the role of the great National Association for the Advancement of Colored People comes into prominence, not alone as the foremost institution in training Negro Americans in fighting for their civil rights for ALL Americans without respect to color or race; but it has—thru the years—served as a 'college' for the training, in real citizenship, colored men and women who have been 'tapped' by various governmental, city, state and national agencies for prominent positions of leadership throughout the nation and for international jobs.

We cannot begin to name the long list of such individuals—only a few for our point. Dr. Ralph Johnson Bunche is perhaps best known. Judge William Hastie was our first governor to the Virgin Islands (after leaving the NAACP chief counsel post for which Thurgood Marshall became famous); Franklin Williams, West Coast attorney; W. Robert Ming, Chicago lawyer, was drafted for a ministership to Liberia.

Of late come such names as Dr. Frank Weaver to a federal housing post; Frank Reeves, a White House aide; E. Fred Morrow, aide to President Eisenhower during his tenure in the White House. There are many, many more who have been drafted for important jobs, thus proving that where Negroes had the ability to do a job and the guts to stand up and be counted as Americans rather than tuck their rear appendages as cowardly 'Uncle Toms'—they have won the right to serve their nation, and have usually done so with much credit to themselves and the United States!

With all these successes on the record, it is hard to understand WHY so many otherwise literary-trained Negroes won't strive to be a FULL MAN (or woman) and help lead our nation—and the world—to a full freedom the world is seeking.

Certainly, only those who have gotten the COURAGE which NAACP program gives have ever been called upon to do these jobs for the government; except, perhaps in the case of a few Deep South states and local communities. And they are fast becoming extinct under the pressure of enlightened colored opinion and white recognition of this 'enlightened colored opinion' as evidenced by the success of current sit-ins and other protests by our youths.

Truly, the NAACP 'college' gives that much-needed COURAGE, without which one CANNOT BE A TRUE AMERICAN CITIZEN. WHY DON'T YOU JOIN UP AND BECOME REALLY FREE?

With his great religious faith, the colored man has been quick to forgive his oppressors. However, it was noted that the patience of the young educated Negroes is wearing thin and they are demanding more and faster action than did their forebears.

DRAMA GROUP RECEIVES TOP RATING
J. W. Ligon Junior-Senior High School received an A-1 rating in the Eastern North Carolina Drama Festival recently held in Wilson and Irving Riddick received the "most valuable actor's" award.

Ligon's drama group, under the direction of C. C. Linscomb, presented a serious drama entitled "Afraid in the Dark" by George E. Callahan. The scene, in a death cell, depicts three men awaiting the electric chair where White a thug, spits and wise cracks his disgust toward Juan, a young Mexican who is about to die for a crime he did not commit. In a frenzy of fear Juan begs for help; and the Captain (a gentleman except for one mistake) offers wise counsel and comfort. Each in his turn admits being "afraid of the dark," and at the last moment turns to prayer.

Riddick, a senior at Ligon, gave an outstanding performance in his delivery and seemingly natural acting. He received rave notices because of his convincing ability. Ligon received its rating because of the overall performances of the students and the arrangement and completeness of the play.

WFMY-TV WANTS TO PURCHASE LIGON STUDENTS' ART

In a letter received by Miss Mable Bullock, Art director at Ligon, WFMY-TV congratulated her and her students and proposed to purchase the art if she would just send it by way of Railway Express collect.
