mentals, since all have exactly the same problems to face. Each and every one of the 24 nations seated at the Belgrade meets, are committed to seek freedom from want, fear and frustration.

Throughout the world, the colored peoples are suffering from race and color discrimination imposed by white nations. Thus, these white nations, are the avowed enemies of all colored people who seek freedom from want, fear and frustration.

On the agenda of the conference, priority has been given to details of obstacles confronting each of the 24 nations, the obstacles which lay in the path of their aims. Top priority, without doubt, will be given to the lack of capital.

Though abundance exists in some countries, there are still hundreds of millions of people in these areas who are hungry and are seemingly condemned to remain in that state all their lives.

The chief obstacles lying between the hungry ones and the abundance of which they seek a portion are the white monopolies of land, sea, and credit.

In the oceans, and on the lands of the world are enough natural resources which, if properly harnessed, would supply mankind with all the food and raw material needed for many decades ahead. Only lack of capital and knowledge prevent these resources from being properly developed.

White Man Held In Kidnaping

WINSTON-SALEM, N. C. (AP) — A 38-year-old white man charged with kidnaping two teenage Negro girls was turned over to Forsyth Superior Court here last week.

Frank Jackson Gough allegedly lured Misses Rita Elaine Saunders, 15, and her sister Beverly, 12, from their home on pretext of hiring them to sit with his reportedly sick mother.

The girls said he drove them to a rural road in Davis County where he told them they would not be hurt if they would cooperate with him. He was arrested hours later at home.

Charges were to be continued in Municipal court. Gough's bond was set at \$300.
