100% continuous filament virgin nylon carpet\*

What is it?

It's a luxurious new carpeting made of 100% virgin nylon continuous filaments . . . no short, loose fibers which produce "shedding" or "fuzzing" as in ordinary carpets.

Why would I like it?

The continuous filament carpet outwears similarly constructed carpets of other fibers. It's easy to clean . . . most household stains and spots are easily removed. Resists scuffing and prings back from pressure of furniture or feet. In addition, it's moth-proof, mildew proof and non-allergenic

Is it expensive?

Not at all! This carpeting really gives you your money's worth! And, because it is so long wearing, you'll find it will pay for itself many times over, over the years.

How about colors?

Rhodes has a wide selection of fashion keyed colors . . . sand beige, brown, nutria, lawn green, rose beige, pumpkin, red, grey, gaid, turquoise, blue and lavender.

- Non Pilling
- Non shedding
- Long wearing
- Easy to clean
- Fade resistant
