LIBRARIAN PRESENTED FRONT PAGE — The first page from the Saturday, October 25, 1912 issue of the SPECTATOR, a London Newspaper edited in the 18 Century by Addison and Steel was presented to Mrs. O. M. Irving, head of the Benson Library, Saint Augustine's College by Mrs. Margaret Davis, instructor in French and English at Saint Augustine's last week.

American Visitors In Russia Are Asked Most About Race, Official Of USIA Says

DURHAM—The questions Americans abroad are most frequently asked by Russians and others are related to the race issue, a United States Information specialist told students at North Carolina College here today.

Charles T. Vetter, Jr., a training officer with USIA gave a speech and a "role playing" demonstration at NCC as a special Forum speaker.

In addition to encouraging Negro students to qualify for

various branches of foreign service, Vetter told the students that the United States is in a "mortal" battle with Russian communism and that "better communication" between people is the best possible solution.

He compared the "difficulty of understanding each other" in foreign relations with relations between the races in the South.

Paintings By 9 Artists On Exhibit At Bennett

GREENSBORO — Paintings by nine artists, representing all the geographical or cultural areas of the world, will be reproduced by living models when Bennett College presents its annual "Living Madonnas" in Pfeiffer Chapel, Sunday night, Dec. 10, at 7 o'clock.

The event, which ushers in the Christmas season at the college, will be presented in the completely darkened chapel, with student models recreating in tableau, the paintings of the masters.

James C. McMillan, head of the art department and chairman of the committee arranging the tableaux, said: "We have tried to symbolize, as the Christmas story symbolizes, the idea that nations shall not be

divided and that men everywhere shall stand together as brothers and proclaim the glory of God in love and peace."

Airman Near Retirement Takes Own Life In Tex.

AUSTIN, Tex. (ANP) — A 50-year-old Air Force veteran, just 18 months short of the 20-year retirement status, died in the den of his home from what authorities said were self-inflicted gunshot wounds.

When Sgt. Ernest DeWitty, who lived off base with his wife, Rosa Lee, failed to report for duty at his usual 5 a. m. sing-in period at Bergstrom Air Force Base, an official called Mrs. DeWitty at the home.

The wife, not realizing that her husband had taken his own life, told the official that the sergeant was already on the base. When the official told her that DeWitty had not reported, she told him to hold the phone and she would check the house.

Upon entering the den, Mrs. DeWitty found her husband lying in a pool of blood, face downward.

When an Air Force doctor pulled Sgt. DeWitty over on his side, he said he had a low pulse. A .32 caliber pistol was lying under his body.

Ambulances were rushed from

the base and the Fuller Funeral home. The veteran airman was taken to Brackenridge hospital where he was pronounced dead on arrival.

Authorities said DeWitty's action may have stemmed from a recent visit he made to an Air Force doctor, and there was the possibility that the doctor had told him something relative to his physical condition that may have disturbed him.

There's one milk cow for every 229 persons in the United States—17.5 million cows to 180 million people.

Physical Ed. Group Gives A Program

FAYETTEVILLE—The Area of Health and Physical Education at the Fayetteville State Teachers College, staged an assembly program Wednesday which centered about the theme, "Physical Fitness Adds Life to Years and Years to Life." On the program were an assortment of items such as marching tactics, calisthenics by members of the Physical Education classes, a variety of stunts, the presentation of "Ode to Posture" by the sophomore women and athletic dances that pointed up "Baseball in Rhythm" and "A Track Meet."

The several numbers given by the students from the Newbold Laboratory School illustrated the work being done in the Physical Education Methods class.

The program was introduced by Jeannette Melvin, a junior of Fayetteville. Harold L. Scott is chairman of the Area of Health and Physical Education.

From 1950 to 1959, the number of tractors on North Carolina farms nearly doubled: jumping from seventy-one thousand to one hundred and forty thousand.
