"There Is No Evil In Color", Says Father Ferrick

"Racial discrimination is morally sinful, no matter who practices it or for what reason," said Father Edward J. Ferrick, O. P., assistant

at St. Monica's Catholic Church, Raleigh in an address to the Newman Club at North Carolina State College. "It is contrary to right reason and offends the virtues of justice and charity."

"To discriminate against men because of the color of their skin," the priest continued, "is just as foolish as to discriminate against men because of their weight or tall men because of their height. There is no evil in color."

"If it is every necessary to treat one group of people differently from others it must be done fairly or justly. Justice tells us that we must treat people as they have a right to be treated. We treat criminals differently from others yet we should treat them justly. The punishment should fit the crime."

"The American Negro, however, is treated not only differently but unjustly and this not for any misdeed but for something God gave him—his color. In many instances he is deprived of living in a proper environment, holding a job for

which he is qualified and earning a living wage for himself and his family."

"Racial discrimination is not merely the lack of charity. Rather, it is opposed to charity. Unfortunately, it is the Negro himself who suffers the many unkindnesses, not his color. Discrimination is a form of hatred which inflicts evil upon the person."

"Everyone in a while," Father Ferrick concluded, "we hear people say how much they love the Negro but at the same time want him 'kept in his place.' Such persons betray their ignorance about the true meaning of love. They remind us of the words of St. John, 'He who says he loves God and hates his neighbor, he is a liar.'"

"There is plenty of room in this world for many choices and many opinions. However, concerning some things there is no choice and racial discrimination is one of them. Either virtue is practiced towards the Negro or else sin is committed."

Debnam Brothers To Go Overseas
James and Chester, Jr. are preparing to go overseas in just a few days. These are the Debnam brothers. They are the sons of Mr. and Mrs. Chester Debnam, Sr., who reside at 219 Walnut St. here in Raleigh. The two are members of a 10-children family.

JAMES OTIS DEBNAM
Both James and Chester, Jr. are now in the U. S. Air Force. James, a graduate of Ligon High School in 1959, is stationed at Seymour Johnson Air Force Base in Goldsboro. As was the case at Ligon, he was a pretty fair old country basketball player. He is playing with SJAFB basketball team. He is and has been regarded a stalwart in SJAFB line-up. Even at Ligon, he was a good rebounder, but has proved himself quite valuable there with the Flying Cagers. He has also become a point maker since his joining the team. Presently, he is among the top ten base teams with a total of 144 points in 10 games.
We would like to say to James, best of luck and keep the home fires burning. Chester left Sunday.

Will you leave these freedoms to your children?

Men have died to leave you these 4 symbols of freedom.

A Holy Bible—symbol of your right to worship as you wish. (First Amendment, U. S. Constitution)

A door key—your right to lock your door against illegal government force and prying. (Fourth Amendment, U. S. Constitution)

A pencil—freedom to speak or write what you think, whether you agree with the government or not. (First Amendment, U. S. Constitution)

And a free ballot—your right to choose the people who represent you in government—your protection against government tyranny. (Article I, U. S. Constitution)

In half the world today, these symbols and the things they stand for have been destroyed.

And Khrushchev says it can happen here. He boasts that our grandchildren will live under socialism.

Unthinkable? Yes—but only so long as America guards its freedoms well. Against threats that come from *inside* our country, as well as from the outside.

In these critical times you would think that all of America's energies and financial resources should be concentrated on strengthening our country's defense.

But there are some people who would weaken this effort through needless government spending. For example, they want to use billions of your tax dollars to put the government deeper into the electric power business.

Such spending is unnecessary because the investor-owned electric light and power companies can supply all the additional power a growing America will need.

Each time the government moves further into business—any business—it is another step on the road to socialism. And socialism is one thing Americans do *not* mean to leave to their children—or grandchildren, despite what Khrushchev says.

Bragg Listed Among Biased Posts

Fort Bragg was listed among the Negro servicemen now serving in the United States armed forces at home and abroad "an international disgrace." Diggs said his charge was based on more than 250 complaints of racial discrimination he had received during the past sixty days.
