## Dr. John Lovell Prof Of English At Howard Univ. Challenges St. Augustine's Students

"No longer can students of the United States rely upon a smattering of learning," declared Dr. John Lovell, Professor of English at Howard University, Washington, D. C., in an assembly address delivered recently in Taylor Hall on the campus of St. Augustine's College, under the sponsorship of the Eng-

lish department. Dr. A. P. Toliver, chairman of the English department and the chairman of the division of humanities, introduced the guest speaker as a native North Carolinian, a distinguished scholar, a lecturer, the author of numerous scholarly writings and a book, Digest of Great American Plays.

Dr. Lovell, who spent last year lecturing at Osaka University, emphasized in his address that college students everywhere must realize that in order to qualify as a student of the '60's, they must acquire an increased sense of responsibility, a broad general education, a mastery of their special field, and a most intense view.

Dr. Lovell continued by observing that students of the 1960's are becoming more and more the governor of the people because they have achieved an increased sense of responsibility. The speaker stated that a person must be deeply educated. He must know more than his field because no one wants a person with a limited education.

The remainder of the program included music by the St. Augustine's Music Educational National Conference Choir (MENC), Mr. Addison Reed, director; prayer and benediction by the Rev. J. N. Green, Jr., college chaplain; scripture, Mr. Richard Barry, and announcements, Mr. J. F. Wise, chairman of the Art department.

## Va. Transit Co. Trains 4 Negroes

RICHMOND, Va. (ANP) — The Virginia Transit Co., which operates Richmond's bus lines, announced last week that it has hired four Negro driver-trainees.

Kermit A. Blanks, vice president and manager of the VTC's Richmond division said drivers hired in the future by the company will be chosen on the basis of ability without regard to race.

The company now has about 25 drivers, all white. This includes five women drivers retained from the war years.

About half the company's patrons are Negroes. Blanks said, however, that no pressures have been applied by any groups seeking increased job opportunities for Negroes.

## Queen City Man Thinks Negro Job Opportunities Improving

CHARLOTTE — There has been a definite "breakthrough" in providing equal employment opportunities for Negroes, Broadie S. Griffith, chairman of the economic opportunity sub-committee of the Mayor's Committee on Community Relations, reported here Thursday.

Speaking before the Mecklenburg Health, Education, and Welfare Council, he said potentially the most significant breakthrough was the recent decision of the city government to end racial discrimination in employment.

He mentioned several private businesses that recently started hiring Negroes and praised Mayor Stan R. Brookshire and the Mayor's Committee on Community Relations for their work in race relations in Charlotte where he said an "atmosphere of tolerance" has been developed.

Although few firms "have opened their employment ranks to Negroes" and the number of Negroes

hired is still small, he said that this is a "substantial start" on the road to equal opportunity.

"It is my firm conviction," he said, "that the vast majority of our citizens want Negroes to be given an opportunity to earn a decent living for themselves and their families."
