## RALEIGH. N. C., SATURDAY, MARCH 5, 1966 Hopping About Tarheelia

WISE YOUTH JOINS JOB

BY J. B. HARREN ROCKY MOUNT - A 19-yearold school drop-out, who left the classroom when in the tenth grade - two years ago - has seen the error of his ways and has joined the Job Corps and left by airliner for the camp at Fort Breckenridge at Morganfield, Ky.

James A. Baker, is the son of Mrs. Addie B. Baker, 102 Overbrook Drive.

James Baker had tried his hand at several jobs and found that he was lacking training and education to secure and hold the better jobs to say nothing of advancing himself. Then he heard about the Job Corps; that 'The Man' was coming to town. Baker met 'The Man' and 'got the message' real good. James took the tests and lost no time in signing up for what he saw was a sure thing to get an education and learn electronics, one of his favorite vocations.

Then, the gallant youth determined that he would join the Marines after serving in the Job Corps. His penchant for travel helped influence his decision to join the Marine Corps after getting his high school diploma in Job Corps.

James has pledged to send the \$25 monthly pay he gets over and above his learning onthe-job crafts and getting his schooling, board and lodging, to his mother. There are hundreds of youngsters loafing around who would do themselves and their families much good if they would follow Baker's pattern and contact the nearest Job Corpsman, go back to school where they can earn while they learn. In East Tarboro and East No. Main Streets. In other areas, information may be obtained from the post office, sheriff, police chief, mayor or welfare office.

VERNON ROSS, a19-year-old Washington High School senior, earnestly and eloquently, delivered the message Feb. 20 when youth had complete charge of the services at Mt. Pisgah United Presbyterian Church.

Ross discoursed on the terms "Youth What in the World are We Waiting For?" Ross plead for tolerance of youth by their elders, reminding the adults that they, too were once frivolent and seemedheaded to destruction before they got serious in life. Given the chance and proper guidance, Ross said most youth will weather the storm and become good citizens and Christians. Ross is aspiring to the ministry

Ross urged all youth to begin to get serious about life that they find themselves and then they can serve humanity much better.

Problem Solving."

COUNCILMAN RAY NAACP

Tarboro's first colored Town Councilman since the Reconstruction Era was the guest speaker at a recent fund-raising dinner of the Rocky Mount Branch NAACP. Dr. Moses Alexander Ray, dentist, who won a seat on the Tarboro Town Council (Tarboro is officially town-not a city) has wrought well since being on the board. He has received acclaim from both Negroes and whites for his services in helping to get things done without causing strife between the races. Token school integration is working smoothly, and employment in industry and business is moving upward,

Speaking to a \$2.50 per plate dinner attended by a small group of loyal NAACPers, Councilman Ray urged Negroes to "redouble your efforts in getting our people out to register and then work just as hard to get them back to vote," noting that voting is the most effective weapon the Negroes can use in gaining complete freedom and equality. "Negroes need to busy themselves in the political arena with qualified applicants and integration on all prominent civic committees,"

Ray said. Dentist Ray warned that "there is a great danger of alienation of the so-called middle-class Negroes from the laboring group and the masses" as he referred to the immortal Frederick Douglass - the first great Negro abolitionistwho was able to get the ear' and following of the masses. This, we must do today, Ray warned.

Then, taking a poke at Negroes who are willing to spend large sums of money for recreation projects, and expensive autos, while refusing to invest in such community progress projects as credit unions, savings and loan associations and farm cooperatives. "How many could, (would) willingly, \$150 down and \$10 per month for the next 40 years to build a bank. credit union, savings and loan or community merchantile supply store?" Ray asked.

Ray warned that Negroes should not become enchanted with integration to the extent of forsaking all Negro businesses because the whites have finer places. He mentioned how fifty men paid \$7 each for 2 nours dining a white moteljust for the name of it. 'Its folly to think we can afford such luxuries," he said, when NA-ACP gets little from us, although it has fronted our every
