THE LITTLE THINGS
If any little word of mine
May make a life the brighter
If any little song of mine
May make a heart the lighter
God help me speak the little word
And take my bit of singing
And drop it in some lonely vale
To set the echoes ringing.

If any little love of mine
May make a life the sweeter
If any little care of mine
May make a friend's
fleeter if any little lift may
ease the burden of another
God give me love, and care,
and strength
To help my toiling brother.

REV. TROTTER GUEST SPEAKER

On Friday, March 18, the Rev. C. R. Trotter was our guest speaker. He chose as his topic, "Behold, I Set Before You an Open Door; No Man can Close It."

"There are numerous changes and there are numerous fields that are now open for Negroes that were never open before. We are one of the world's wealthiest countries. We control 50% of the world's wealth; 60% of the business. Our savings amount to approximately 35 billion dollars and we have 60% of the world's automobiles. The doors are open, and we must enter into them. The Christian religion is interested in what the people

make and how they spend it because it characterizes what kind of Christian we have. Negroes have made advances in the Negro Market. We have established banks, insurance companies, in which, North Carolina Mutual is one of the largest. Negroes have also established other businesses to help raise our economy.

"Once the Negro found difficulties in obtaining credit, but now credit is open. We must get in the main stream. Think of making preparations

not only for Negro businesses, but for all businesses. There may be difficulties but just be prepared for the tasks ahead. One thing that was keeping us back was "know how" but we are branching out.

"Jobs are going to be available for those who are ready. Let us build a capitol so that the business world will know we are there; build for ourselves a solid foundation. Rev. Trotter closed by saying, "Ask and it shall be given... knock and the door shall be opened."

SELMA - Recognizing signs of unrest and possibilities of an upsurge in delinquency during the summer months, Mr. E. R. Davis, instructor at Harrison and local Shriner formed the Knights of Daniel Club for young men between 11-14 years of age in order to curb juvenile delinquency.

The objective of this organization are studying the scriptures diligently and following maxims stressed by outstanding religious leaders, for developing physical, mental, moral, and spiritual character in young men at R. B. Harrison and the Community.

In an interview with Mr. Davis, it was learned that several factors have brought about this unrest in students at Harrison:

1. Parents tend to allow their children to fend for themselves and do not participate actively with them.

2. Recreation for young boys was not an organized element in Selma, but was becoming a deterrent to understanding behavior problems.

3. Lack of responsibility and ANNOUNCEMENT

Hopping About Tarheelia

"MAN, PORTRAIT IN CONTRAST," FLEMING TELLS RKY MT. METROPOLITAN BAPTISTS

ROCKY MOUNT - Speaking to the newly-organized Metropolitan Missionary Baptist here at the Lincoln School auditorium, Sunday morning, the Rev. John W. Fleming, Shaw University religious education instructor, impressed upon his hearers that "man is a Portrait in Contrast" who is constantly living a life that varies from good to bad and indifferent, depending upon which of these traits has the major hold on his life.

He related the story of a painter having difficulty in securing a model to portray the image of Christ. This done, he later wanted a model for Judas Iscariot, the betrayer of Jesus. Finally, after a long search, he had the ideal subject. After the posing was over the subject was observed crying. Upon being asked why he shed tears, the man with drawn features, revealed that he was saddened because his life deteriorated from his former image of Jesus to that of portraying Judas the betrayer.

The Rev. Fleming, who has been quite active in Raleigh civic circles during recent years; also a director of the Baptist State Convention of North Carolina, asked; "What Are You Living For?"

"Within each of us is an eternal flame of righteousness," he said, which is countered by a struggle against sin, and "if we are not careful, evil will get the better of us." Fleming reminded that "man is more prone to accept materialism rather than to follow spiritual-ly."

The Metropolitan Baptist Church (organization) stems from the nucleus of some eighty members allegedly dismissed from the Mt. Zion First Baptist Church, the Rev. George W. Dudley, pastor. The enlarged group organized under the name of Metropolitan Baptist Church after recently accepting a settlement of ten thousand dollars following legal action in 1865 Edgecombe Superior Court, which remanded the complaints back to the church body. This was followed by an alleged mass dismissal of the members now Metropolitan Baptist, marking one of the few times when ousted members have been able to secure a sizable financial settlement after being excommunicated. The new church hopes to build on the fast-growing east side of Rocky Mount.

James W. Davis is chairman of deacons, and Alexander H. (Tuffy) Bryant Sr., is chairman of trustees. Mrs. Lillian Wells and Mrs. Mable C. Williams direct music.

The Rev. McKinley Hamilton minister, First Baptist Church, Rocky Mount, Virginia, was guest minister at Mt. Zion First Baptist Church for the Rev.

Dominic Crolla in a release from the Duke (University) News Bureau, Durham, relates harrowing experiences of death, tragedy and crippling, caused by children and adults, unwittingly taking poison which has been carelessly left about or placed in the ice box or where smaller children could explore them.

Adults are warned that some 100,000 children die needlessly because of this negligence, to say nothing of the thousands of adult victims. Please be careful!

Tarheelia's School Boards and Superintendents are winning nowadays after sessions with David Barrus of the U. S. Office of Education in Hickory and Raleigh, in which the new guidelines for increased desegregation of public schools were outlined. One question was assured that the tightened up requirements meant the elimination of dual educational system. And it was promised that the names of persons seeking to enter their children in integrated schools would not be publicized. One local official termed that a "police state."

ing of Negroes along with other public departments like meter readers, light and telephone linemen. This gives the community a 'good image,' so necessary for the bringing in of new industry.

In that connection, Rocky Mount and Tarboro Police Departments are seeking Negroes and whites to add to their departments. Contacts may be made directly to either City's Police Department.

Negro men desirous of a career in law enforcement (ages 21-31), having good moral character, would do well to contact or write to the Chief of Police of either Rocky Mount or Tarboro for application blanks. Rocky Mount wants to add to its colored personnel. Tarboro wants to hire their first Negro policeman.

The next major need is for the Tarheelia towns to integrate their officers by having a colored and white officer to work in pairs, as well as increase the number of Negroes on the force while adding them to the sheriff's departments. All this will serve to condition our people to accepting Negroes as equals and improve the effectiveness of, and respect for, law enforcement over the nation.

Another group we can well do without hereabouts is the Black Muslims who are now canvassing the Rocky Mount area talking about getting our people together apart from the white Americans; just when we are trying hard and succeeding, despite the KKK, in creating more fellowship, love and understanding with the whites. We do not need any group seeking to divide us, racially or interracially. This is an era when it will take 'all of God's children' all we can do to work and live together to stave off our enemies from without as well as from within American. Walk together, children!

"YOU KNOW," said a man as he reached for his second helping of dessert, "I've got to watch my waistline."

"You're lucky," replied his companion, "I've got it right out there where you can."

STOP MARCHES; NEGOTIATION IS BETTER
ROCKY MOUNT - Now that Golden Frinks et als have led their uneventful 'march' from Hertford to Edenton without any untoward incidents (the crowd was one-fifth the originally stated figure), it is hoped that wisdom will become the better part of valk and that this group of rambunctious leadership will not force itself upon communities and towns not desiring to continue demonstrations.

There has been much good accomplished through demonstrations and picketing, we'll admit. But demonstrations have run their course - much like a fad, or style of clothes. The white Southerners, along with those in the north and west, have 'gotten the message' regarding the desire of Negroes for the end of all forms of American discrimination based upon race and religion.

Colored Americans can achieve now if they will devote the energy expended in questionable value marching into getting out the vote, after vigorous registration activity, and use their weight in electing men and measures conducive to greater human rights.

Granted that the white power structure will not move any faster or further than they are forced to. Let's do the forcing through wise use of the ballot, which is far more effective and less circled to disrupt interracial harmony and leaves scars hard to heal up.

After all, when the Negroes win their rights, jobs, better housing, integration of public facilities and elective offices, they still should want to have retained most of their old white friends and gained new ones with respect and appreciation.

Jobs are opening up for Negroes in Tarheelia faster than they can be filled. It is necessary that Negroes be taken in and given the same on-the-job training that is given to whites. It has been proven that given an equal chance Negroes can learn as fast as others.
