Now It Can Be Told: 'Twas Dorothy Debnam, Joe Hinton In Auburn

by Pete Holden
New York - Ever since the story first broke in The May 7th edition of THE CAROLINIAN, under this writer's byline, entitled: "A Popular Raleigh Divorcee Marries in Auburn, N. Y.," society circles in Raleigh and Eastern Carolina have been buzzing with -- WHO IS IT?
Not only have they been buzzing, but on the writer's trip to Raleigh over Memorial weekend, every where we (wife and I) went, instead of the usual greeting, "how are things up that way," and all that jazz -- it was instead, "Who is it?"
At the now famous alumni party five women "collared" us and our wife had to rescue the writer for I believe they were going to "choke" it out of me. And in, unquestionably one of the most popular family's home in the Capital City, the Mrs. never yet said the usual "I am glad to see you et cetera," as she always does -- said she, "come in, have a seat," then she slipped two tall cocktail glasses of that choice imported thirst quencher from Scotland before us and asked -- "Who is it?"
Still, a pretty wife of a Ph.D. staff member of one of Raleigh's Negro colleges said, she had, in company with other women, discussed the above story in club meetings, and one night after a woman's club session she and several women got in her car and rode through the Blittmore Hills section of Raleigh for minutes, trying to determine who the divorcee was, only to give up in disgust.
And so the story-book romance which began many, many years ago, only to be interrupted by the bride's previous marriage to a Raleigh man, which later ended in a divorce, climaxed in Auburn, New York on Friday evening, April 22nd, last in that small but beautiful country Methodist Church, when the Minister pronounced Collins Ismael (Joe) Hinton and Dorothy Jones Debnam, man and wife.
The story carries a special significance to the writer and his wife, because, aside from being close friends of Joe (as he is known to many) and Dorothy, it can now be revealed that Joe and Dorothy were male and female escorts to my wife and me, when we were married in New York City, many years ago.
Dorothy, an attractive and articulate Raleigh native, attended Raleigh public schools and St. Augustine's College, and formerly lived on East Hargett Street in Carolina's Capital

City. She later moved to a comfortable home in the Blittmore Hills Section of that city, where she was living prior to her marriage to Mr. Hinton. The former wife of Harry Debnam of Raleigh's South Park Debnam family, Mrs. Hinton, for many years was employed in the Insurance Building.
Mr. Hinton is a native of Garner, N. C. and formerly lived in Raleigh and New York City before taking a teaching position in a Boys' Training School in Auburn, New York, where the two will make their home.
A product of Garner's public schools, a graduate of Berry O' Kelly High School and North Carolina A&T College, Mr. Hinton formerly owned businesses in the above three cities, before taking a job with a branch of New York University's Special Education Program, as a special teacher-demonstrator of the use of artificial limbs for the handicapped.

Hopping About Tarheelia

NAACP GAINS
ROCKY MOUNT - The National Association for the Advancement of Colored People continues to chalk up gains on the school desegregation front as the New York office reports some 36 northern and western school systems increasing their integration under NAACP pressure on local, regional and national levels. At least seven NAACP units have filed complaints with the U. S. Office of Education under Title VI of the 1964 Civil Rights Acts.
This has been in compliance with a 1966 NAACP convention resolution which read in part, "While segregated schools in the North and West result from many causes, it is clear that racially segregated schools, whatever the cause, are educationally harmful for Negro and white students alike."
It continued: "We urge all branches to make sure that local officials do not use segregated housing patterns as an excuse to justify segregated schools. Now, more than ever before, it is imperative that Boards of Education and school officials correct racially concentrated schools, regardless of cause, to the fullest extent possible."
WOODSVILLE, MISS. - Charles Evers, NAACP fieldworker led a movement which culminated in the removal of A. J. Finch, Negro school principal of the 2,500 student Wilkerson County Training School for seven years. During the period, Evers alleges that more than thirty thousand dollars had been raised through parties, bazars, but "not one cent ever went back into the school that we could see." Then Evers reports the bad condition of the school ground, lack of recreational facilities, science materials, and the "900 girls in home-making classes using three out-worn kitchen stoves. . . (and) no business or secretarial courses taught." Added to this was the nearness of a hog-pen which they allege Mr. Finch made no effort to have moved. Negro voters here outnumber whites two-to-one. The new NAACP branch has 500 members and is growing daily.
DETROIT, Mich. - Speaking to the AFL-CIO Negro Labor Day, Roy Wilkins, NAACP Executive Director, said, "Negroes today are forced to continue to challenge the vile racism which continues to permeate layers in our society. The very people who came to America to improve themselves. . . are spewing ugly race hatred upon the Negro's struggle for decent, unsegregated housing in the country he has watered with his sweat and blood since 1619."

pledged to fight the recently enacted anti-guidelines legislation designed to by-pass federal school integration guidelines. Rights workers point out that Alabama whites as well as Negro pupils stand to lose thirty million dollars in federal funds!

SMITHFIELD NEWS

SMITHFIELD - Needs of adults outrun their supply. The gift of longer life has not been accompanied by freedom from disease and the weakness of age. Health surveys indicate that more than half the persons in the United States past sixty five are suffering from some chronic disease or other physical impairment. The home for incurables and the aged are filled to overflowing capacity. Figures show that two thirds of the aged in this land of plenty are more or less dependant. The inescapable fact is that for the majority, increasing age finds us with decreasing resources for meeting the needs of life.
Social Security plans of many kinds have been and are being devised to meet these needs on the material level, but it still remains true that man cannot live by bread alone. Are our churches prepared to meet the deeper spiritual and social needs of adults through the reinforcement of Bible study, prayer, worship, fellowship, service, peace of mind and security of the soul?
To a beautiful congregation last Sunday morning, the pastor of the First Baptist Church Rev. C. L. Manning, gave a beautiful illustration of "Saint" The message was most inspiring and spiritual. The youths department of the Sunday School will render a short program Sunday morning at 10:30. At this time, many students will be promoted and will receive certificates. You are invited to attend this exercise.
