## Peace Corps To Conduct Test On December 6

Raleigh area residents interested in putting their skills to use in developing nations around the world are invited to take the Peace Corps placement test at 3 p. m. on Monday, Dec. 5, at Main Post Office.

The Peace Corps uses the

placement test to determine how an applicant can best be utilized overseas. The test measures general aptitude and the ability to learn a language, not education or achievement. (If test scores indicate a limited language-learning ability, for example, the Peace Corps tries to place the applicant in an English-speaking country). The placement test requires no preparations and is non-competitive -- an applicant can neither pass nor fail.

The application form, not the placement test, is the most important factor in the selection of Volunteers. Person interested in serving in the Peace Corps must fill out an application, if they have not already done so, and present it to the tester before taking the test. Applications may be obtained from local post offices or from the Peace Corps, Washington, D. C. 20525.

The placement test takes about an hour and a half.

## Yes, We All Talk

BY MARCUS H. BOULWARE  
ANCIENT VOTING METHOD

Those members who study parliamentary law have discovered that there are several ways of voting. One method, although it consumes considerable time, is casting the ballot.

In the Greek Athenian ecclesia, there were two ways of voting: one by show of hands, and second by lot (dropping white and black pebbles into an urn). However, the assembly employed mostly the show of hands method.

If appears that the ecclesia used the method of balloting when the proposition to be voted upon was a law applying to an individual or a peculiar group, or a decree inflicting a severe punishment.

At these meetings, any citizen was privileged to address the assembly. Neither were artisans denied the privilege of discussion and debate.

## St. Aug. Sets Workshop

St. Augustine's College will conduct an in-service BSCS-Special Materials in Biology Briefing Workshop for 30 High School Biology Teachers Jan. 25-March 15, 1967.

The selected participants will meet 4 hours (4:30 p. m.-8:30 p. m.) each Wednesday that the Workshop is in session for eight weeks, beginning Wednesday, Jan. 25, and terminating Wednesday, March 15, 1967. Each participant will register for 2-hours credit which can be used for renewal of certificates.

The purpose of the S-M Workshop is to update Biology Teachers in selected subject matter areas of Biological Science: Patterns and Processes, and to orient the teachers to the investigatory approach to biology teaching. Great emphasis will be placed on laboratory activities that can be done in the high school biology laboratory. Lectures will involve a discussion of recent developments with particular attention to some voids in the biological sciences.

The Workshop will be directed by Dr. W. W. Johnson, Chairman of the Division of Natural Science and Mathematics at St. Augustine's College.

High blood pressure and impaired heart function are the two most important factors thus far identified in strokes caused by blood clots in brain vessels, the North Carolina Heart Association reports.

## Crosby - Garfield Goes The Other Mile In Spreading Family Cheer

BY ODESSA W. HICKS  
"Why do we give thanks to God?" This question was the theme of a most inspiring message delivered by Rev. W. B. Lewis, as the Crosby-Garfield School pupils and faculty prepared for the Thanksgiving holiday.

The audience was then reverently solemnized with a very heart-warming rendition of "Bless This House," by Mrs. P. W. Smith, with Mrs. Marina Bell at the piano. On this

note of inspiration, the children filed quietly back to their rooms with an atmosphere of thankfulness and giving prevailing throughout the entire building.
