Orange County Improved Housing Anticipated

Improved housing is anticipated for Orange County residents, thanks to the cooperation of two families who allowed others to visit the three-bedroom houses they built with the aid of extension house plans.

According to Mrs. Bonnie B. Davis, extension home economics agent, the open houses were held Dec. 4. More than 425 people stopped in. During the visits, 38 leaders, one stationed in each room, assisted in telling the "whole" story; how the homes were planned and built, what space and storage arrangements were recommended and what materials were used during construction. Results have been excellent. The extension agents have already been asked to order house plans for six families and more than 280 families have asked for more information about housing and house furnishings.
