The officer alleges that Stroud succeeded in freeing himself and took off. Jones alleges that he gave chase and caught him about a half a block away. It was then that the officer alleges that he had to use force to arrest Stroud.

The oldest Holmes son, James E. Holmes, Jr., has served three years with the Army in Germany.

**Powell Denied Oath, Plans Strategy**

WASHINGTON, D. C. - Like most of the nation, Washington has not accepted Powell's ouster from Congress as being final. There are those who feel that perhaps he had been flagrant and perhaps flaunted the courts, but few felt that his colleagues would lower the boom on him.

There are others who feel that Powell is not through and the fact that his followers are planning a meeting here Thursday, to design the next move, foretells a fight is in the making.

The big concern is along the thinking that Powell expressed when he made his five-minute

**The Thought Exchange**

By GORDON B. HANCOCK  
A MAN WITH A PLAN

For to these many months, even years, this writer has lamented the fact that the Negro masses have been forsaken and deserted, if not indeed betrayed, by the so-called Negro educators, whose planning took no account of the tough situation facing the Negro millions who would not be blessed with sufficient education to cope with the competitive world in which they will be forced to live! All of our colleges are geared to a program for the Negro classes, but no provisions have been made for the Negro masses, upon whose backs the Negro classes must ride, if indeed our Negro classes must emerge. Although it has been made crystal clear that the Negro classes must graduate from the Negro masses, no provisions for the preparation of the Negro masses has been provided. This situation has utterly failed

to attract the attention of the so-called educators. The situation has been studiously by-passed until the emergencies of the hour have thrown it into bristling focus, for the Negro is now clamoring for an integration for which he is in many ways unprepared. Opportunities are lying loosely around with no Negro takers in sight. All kinds of "luscious" advertisements fill our daily newspapers, with no Negroes prepared to answer. Our leaders have prepared the people for demonstrations and riots and a commendable "fighting" complex, but they have not prepared Negroes to take over the opportunities of the hour. Negroes have not been convincingly told that if Negroes survive the cut-throat competition of the Twentieth Century they must survive by reason of struggle and hard work, with emphasis on hard work. Negroes who must live by
