Negro Congressmen, civil rights leaders, ministers, and laymen, for once, had found an issue on which they could all agree; That Powell had been unfairly denied his Congressional seat for racist reasons.

Both Negro militants and con-, servatives, for a change, were speaking as one. Instead of fighting one another, they had found a common enemy: the, forces behind Powell's possible ouster from the House. From the black power mili-

tancy of SNCC to the civil rights conservatism of the National Baptist Convention, USA Inc. came the same cry; "We must stand behind one of our own."

Stokely Carmichael, SNCC chairman, came to Powell's aid, as expected. But it was a little surprising to hear Dr. J. H. Jackson, Baptist convention president, express his "admiration and appreciation" for the embattled politician's 'many contributions, as a Congressman, a minister, and Harlem

Dr. Jackson, not known for his support of civil rights militancy, declined to spell out what he considered Powell's "many contributions." He had no criticism for the threats of Negro counterattack in the face of the Adam-smasher efforts in Congress.

He deplored "this tragedy" and said he "wished it had never happened."

Another minister, who has termed Powell's personal conduct "reprehensible and de-spicable," was directing a "National Pilgrimate to Preserve Powell's Chairmanship."

The Rev. Walter E. In Union There Is Strength

In yesteryear many of the graduating classes from high schools used, 'In Union There is Strength,' as a class motto. Many of the graduates were too young to appreciate what the true meaning was. A look at the unification of Negro leaders behind Adam Clayton Powell, in his trying hours, makes all of us realize what it means.

It is unfortunate that it took such a catastrophe in the halls of congress, but from where we sit it looks like a blessing in disguise. It has served as a tonic to Negro leadership and should serve as an awakening fluid to Powell. Never before has Negro leadership had such a pentecostal realization of being on one accord. From every quarter there has come the one universal cry, "Why Murder Powell?" Baptist,

Methodists, Catholics, Presbyterians, Republicans, Democrats, Christians and Jews, have sensed the feeling that "Adam is being murdered." This should mean that Negro leadership should take another look at itself and say the Negro's cause is just and no matter what my personal ambitions may be, I will fight-to the last ditch-to defeat those who would deny any citizen his right because of race or color.

Negro leadership rose to the occasion, put away petty differences and rallied to Powell's cause. It was mindful of the mistakes the Harlem congressman had made and the abuses of moral ethics that he had used and to a man said, "Adam does not deserve the penalty that he has been asked to pay." This exhibition of loyalty is commendable and could be a telling factor in the future of the American Negro.

It should help Clayton Powell to take a serious look at himself and realize that the "Wages of sin is death, but the gift of God is eternal life." There is no doubt about his being needed in congress and there is no doubt about his ability, the only thing he needs to do is to realize that he must be true to Adam and then he can in no wise be false to any man. Certainly there is strength in union and union strengthens, even the weak.
