When you ask, when will this Sullivan Utopian dream get underway? It has been underway for two years and the program is being adopted in widely disparate parts of this country, and even in Watts and the people are going strong for it. What is the basic philosophy? Self-help and the pride that goes along with it! We have had sit-ins, fight-ins, argue-ins, butt-ins, big hreat-ins, big brave talk-ins, marchins, riot-ins, pass-the-hat ins, and bold attempts at bluff-ins! When our so-called leaders attempt to array the Negro race against the white race on merely racial grounds they are trying to "bluff-in." Within recent weeks we have read about threats our so-called leaders make in serving notice on the white power that unless beg than work is so much "bosh." There certain demands were met and met at once, there would be more riot and rioting. That is a species of rabble rousing which Who will rally the race to the support of amounts to trying to bluff the white man the Reverend Mr. Sullivan, even as the by boasting of a power we do not have. leaders rallied the race to the support of It helps to explain the phenomenal growth A. The trial was postponed until Feb. 28, due to the fact that Stewart's lawyer, of record, George Anderson was called to Superior Court.

Stewart is expected to fave an avalanche of mute witnesses when he faces the charge of assault with a deadly weapon due to the big bunch of blue cards, which were with the warrant. The cards are said to have been a record of the many encounters he has had with the police, over the years.

The trap came when she told the women that she had to leave a certain amount of cash with the teller to pay the insurance on the bond. It was then that the two strange women began to conjure up a plan to raise the supposed tariff charge. Mrs. Murphy was asked whether she had any money and she told them she had only \$38.00. She was then asked if she had any money in the bank and her reply was no. It was declared by the strange women that it was tragic that she could not share in this oncein-a-lifetime find. Mrs. Murphy then decided to go to one of the loan companies and make a borrow, to raise her part of the needed sum. She left the \$38.00 with the two strangers and made it straight to a loan company, where she perfected a loan. out of which the interest was taken and she returned with \$191.00, which she gave to the third woman.
