RALEIGH, N. C., SATURDAY, JULY 15, 1967

### ACCUSED

(CONTINUED FROM PAGE 1) their bodies were found.

A law enforcement officer told the CAROLINIAN that the day and time of the double murder were hard to determine due to the fact that rigor mortis had almost made the bodies unidentifiable.

In plecing the murders together, it is believed that the couple had been dead at least four days, when their bodies were found. It is believed that the man was shot twice, once through the screen door of the kitchen and again after he had fallen on the floor. It is speculated that the woman was shot through the heart. Her body was also found in the kitchen.

The web of evidence against McAllister is tightening as investigators continue to work. The gun, which is alleged to have been used, is said to have been stolen from the home of John Thomas Wade, who also lived near

Wade, about a month ago. The weapon was recovered Thursday. State trooper T. J. Collins, a former Rockinham city policeman, had taken the gun from the McLaurins' car when it was involved in an accident on Interstate 95 near Lumberton last Sunday night. Collins investigated the ac-

cident and turned McAllister. who was driving the vehicle. over to state prison authorities when he learned that the Negro had escaped from a prison work crew last week

Cumberland deputies learned Tuesday night during their investigation of the murders that the car had been involved in a wreck and was stored at a garage in Lumberton.

## MILITANT

(Continued from Page 1) cial advancement," the report added

While membership and financial support for some of the newer civil rights groups was on the decline, the NAACP said its membership as of Dec. 31, 1966, was 441,169, as compared with the 1965 figure of 440,-538. Total income for the year was \$2,228,127,27 as against \$1,957,321.78 in 1965.

"in 1966, as in former years, the major source of income was from the Association's preship."

The increase in NAACP reflects the abiding confidence of the Negro community in the stated.

Another factor contributing to the NAACP's continued growth, the report said, was the wide variety of programs carried on by the organization's more than 1,500 branches in such fields

The slogan, "because of its essentially separatist and sometimes violent connotations and interpretations, evoked widespread concern among both Negro and white citizens," the

report added. In analyzing the defeat of the 1966 civil rights legislation - the first time in nine years major

rights legislation was killed by a Senate filibuster - the NAACP concluded that the answer depends upon the point of view.

The NAACP report said, however, "One thing is certain; neither the peace advocates, nor the black power advocates, nor the rioters attempted to mobilize support for the legislation. That burden was carried almost solely by the NA-ACP. Some of the erstwhile supporters of civil rights legislation, both Negro and white, completely abandoned the effort to secure enactment of the vital measures encompassed in the bill. They were in hot pur-

tions." Greensboro was the site of the first sil-in demonstrations the nation in 1960. Since in that time, city officials say a moderate amount of integration has been achieved.

# KKK

(Continued from Page 1) Communism and Integration. Join the KKK."

The posters were put up by six men who said they were from Lillington, N. C. but who refused to identify themselves. The Fayetteville sign is on the property of J. J. Matthews, a heating contractor. Matthews said he leased the property to the United Klan for five years. He declined to give names of the men with whom he dealt.

The contractor said he supported the Klan's aims. "I think it's the only weapon we have got to combat the Communists and the Negroes," he said. "We've got no government on our side. Anyway, they don't show it if they are.

Local townspeople expressed regret and talked about the kind of image it was giving the city. It is p'ainly visible to tour-

ists who are headed north on the highway as they approach Pavetteville

ed long and bitterly on the acrid cud formed by frustration and helplessness, Prof. Bernstein wrote in a recently published book, "Alternatives to Vio-

lence: Alienated Youth and RIots, Race, and Poverty." problem of riots concerns the "stark reality of unbearable living conditions, the insufficient opportunities to rise out of ghetto life, and a feeling of helplessness." diamond now are used by industry each year, a large percentage of them going into cutting edges for saw blades. The blades are used for slicing street pavement, structural stone and bricks and preformed concrete, according to Omark Industries, Inc., a leading manufacturer.

Many riot participants are young people from the ghetto whom Prof, Bernstein describes as "allenated youth," But before the violent flashthose who are "out of the mainstream of the economic, political, and social life of the community." Poverty and hostility are the

core of this concept of alienation, "though race adds to it," Prof. Bernstein said.

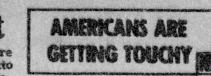

The riots of the mid 1960's unlike earlier ones such as the lethal Detroit race riot of 1943, are not directed immediately against whites, although any white man passing through the area during a riot will be a likely target.

Most anger is directed toward the policeman as the symbol of community power, the professor sald.

Paradoxically, many of these riots have started harmlessly with police being called to take care of a minor disturbance, he went on.

At first, the tone is light. almost jocular, with people standing about and watching. But as soon as policetake more vigorous action, or start to make an arrest, the situation can erupt into violence, he said. Prof. Bernstein called riots a "spontaneous mass protest

against degrading living conditions and a sense of helplessness."

age group.

away. It may aggravate it! The reason is that tooth enamel can't restore itself. Teeth are sensitive when outer protection wears down. MORE than one in 12 Amer-icans is touchy. They react with pain to the touch of hot or cold

A new toothpaste, called Thermodent, relieves the pain of sensitive teeth and helps build foods, sweets or sours, or even to the slightest pressure of a spoon resistance to pain in areas where tooth enamel has been worn away. or the rim of a cup. green-and-white plaid skirt, doubles as a reading and makeup area

The desk is large and durable so many projects can be undertaken.

Both cane-backed chairs are upholstered in the check, while a stripe in the same colors covers the bed, drapes the window and creates a swag. The swag is stapled to the olive-green wall behind the bed, and into the crown above ... a simple touch that assures the teen-ager that in her dream-room she'll grow up to be a meen.

### e's had to. His business is selling ice and coal.

Ice and coal were sizable items in many family budgets 20 years ago. That's when Ray Turlington started with Clinton Ice Manufacturing Company.

But times have changed. So has Ray Turlington's business. By meeting the demands of a changing market, he continues to make a profit selling ice and coal.

Ray Turlington has a personal interest in another company that keeps up with the times, a business that also must meet the demands of an ever-changing market-Carolina Power & Light Company.

Ray Turlington is one of some 35,000 CP&L owners-people who own shares of stock in our Company, and who make us an "investor-owned" Company.

Owners like Ray Turlington help us keep up with the times.

Part of the \$318.5 million we've spent for expansion in the last 10 years was their money.

Their investment is the big reason we're able to produce sixand-a-half times more electric power today than we did 20 years ago.

It's their money that helps finance our continuing research to keep service dependable, prices reasonable.

We plan to keep it that way-by tending to our business.
