DEAR SALLY

DEAR SALLY: When I was church wedding. H. L. J. 16 I eloped with the boy I was going steady with, but the marriage was immediately annulled by my parents -- for which I am now very thankful. I subsequently met and married a much finer man, and now at the age of 24 am the proud mother of two darling children. What I am wondering now is whether I should tell my children at an early age about my early escapade, so as to eliminate the possibility of their being shocked should someone else later tell them the news. Plenty of people know about it. I'll appreciate your advice on this. DEB.

DEAR DEB: Yes, I think it would be wise to tell your children about this when they're between about the ages of 8 and 10, in as gentle and casual a manner as possible. It's always unwise to try to keep such things secret - especially when, as in your case, so many others are in the know.

DEAR SALLY: We have some very close friends whose daughter suddenly eloped about three weeks ago. Now we have received an invitation to a reception which is being given by the girl's parents in honor of the newlywed couple, and we're wondering now whether we owe the couple a gift just as we would have we had been invited to a

DEAR H. L. J.: In the first place, a wedding gift is never something "owed." It's a symbol of your feelings for the persons involved, and in this case if your feelings of friendship for the girl's parents are strong enough, you will certainly wish to give their daughter a wedding gift.

DEAR SALLY: Our son recently graduated from law college, and is now practicing. Since the beginning of a law practice is usually rather slow. a couple of our relatives visited his office for legal counsel, in order (as they put it) to build up his confidence. However, when he sent them a modest bill for his services, they became very huffy and refused to pay them. Now what can he do about this? STANDERS-

DEAR STANDERS-BY: He should write off these "deadbeat" relatives and learn from the experience. Hereafter, when any relatives come to him for professional advice, he should make it clear in advance that there is a fee attached to his services. This should not be awkward or indelicate ... it's just plain good sense!
