Rites For Soldier Thursday

A gripping story was told the CAROLINIAN by a mother whose son escaped the ravages of war in Vietnam to come back to Raleigh and be killed at a night spot early Sunday morning. The story was told while other members of the household sat and stood almost awe-stricken, in the middle room of the home, 102 St. Augustine Ave.

She began by saying that her son, Charles Edward Robinson, 20 yr.-old graduate of Ligon High School, joined the army shortly after graduation and lacked only 17 days having completed two years in the army. He had served in Vietnam and was stationed at Ft. Meade in Maryland.

There was the first sad note when she said that he came home to attend the funeral of her sister, last week.

She then launched into how she was told her son met his death. She received her information from persons who were eye witnesses - one was her nephew James Hopson and a girl admirer, known only as Ramona.

Hopkin told the CAROLINIAN that he and Charles were in the Sound Track and were getting ready to leave when Yarborough picked an argument with Charles. After trying to apologize he and Charles walked out and were followed by Yarborough, where Yarborough hit Charles.

Robinson is alleged to have attempted to defend himself and his hat fell on the ground and he tried to pick it up. When he arose he was looking into the barrel of a gun. He attempted to run and when he started for cover, Yarborough is said (See RITES, P. 2)

Black Power Charged In Tennessee Murder

In Nashville, Tenn., five or six individuals who have been active in black power activities allegedly killed one policeman, Thomas E. Johnson, a Negro, and seriously wounded a second officer.

When the news was first flashed over television no one suspected it would involve workers in the black power movement. The police department was warned that several men were appearing at various liquor stores trying to cash stolen money orders. Police investigation revealed that apparently the men were switch-

ing cars in the course of their activities.

Matters came to a head when two men tried to cash a \$75 (See CHARGED, P. 3)

Token Jobs Failing To Meet Requirement

"In a multi-racial society, national achievement can only be gained through complete integration," Roy Wilkins, Executive Director of the National Association for the Advancement of Colored People, informed more than 1,500 persons in a Public Affairs Forum address at Shaw University here Monday.

Introduced by Shaw President James E. Cheek, Wilkins continued, "Negro youth are determined to speed action of the national will. This is the mission of black people, especially our youth."

Mr. Wilkins, a native of St. Louis, Mo., who grew up in St. Paul, Minn., was the third speaker in the University's Forum Series, held at 11:30 a. m. in the Spaulding Gymnasium.

"The word 'integration' had been distorted. Integration in education was one goal. But our goal of complete integration was never limited to education. The Nine Students who entered Little Rock's Central High School were there for the purpose of getting the best education available in the city of Little Rock, not to mix with whites."

Advocating open housing, he declared, "I can't think of a greater humiliation for the Negro than to have to vote on it. In California last year, citizens voted to keep Negro and Orientals out!"

"Open housing keeps open job opportunities, because the area in which you live is very essential where the distance to

your place of employment is concerned.

"In this great wave of the future, some Negro applicants for positions will be excluded simply because they are denied housing in certain neighborhoods. Transportation and accessibility are the key factors in some employment.

ELIZABETH CITY - The Board of Trustees of ECSC last Thursday accepted the resignation of Dr. W. N. Ridley as President as of June 30, 1968 and commended him for excellence under adverse conditions during his ten years of work at the college.

About 150 students carrying placards supporting their president cheered and applauded him as he went into the trustees meeting. One sign showed a large "Magnifying Glass of the auditor's office," and another asked "why should we suffer because our president is not an Uncle Tom?" Javon Brothers and William Hoggard presented a letter to the Board for the group.

Mrs. Elaine W. Perry, Raleigh, President of the college's General Alumni Association, said Saturday that "Because of his contribution to their Alma Mater the Association is greatly concerned about Dr. Ridley's resignation. Hundreds of letters and telegrams from throughout the country have been sent to the Board of Trustees, other state officials and to Dr. Ridley, urging reconsideration of his resignation." 80% of the faculty contacted signed a letter sent to the Board requesting that it reject the resignation or accept it asking Dr. Ridley to stay until June 1969, according to a member (See OUSTER, P. 2)

Negro College Must Continue Says Prof.

CHARLOTTE - The Negro College is "one of America's few legitimate bastions of relevancy," and if it should fail, "a vacuum of leadership" would be created that will "not be filled in this or succeeding generations."
