#### Vietnam: But We Have Another Commitment

"This country has a commitment in Vietnam, and we mean to keep it." has become a common idiom in this country. When the Pueblo incident occurred, far too many legislators unged the President to give the "go ahead" for our militery to throw its weight around.

Besides, hamping on our Vietnam commitment, why can't we publicize our commitment with reference to resolving our domestic problems, most notably the slums and ghettos inhabited by hundreds of thousands of black citizens in this great land of plenty.

We have observed that, on a woluntary basis, our citizens appear to be more charitable than the municipal, state, and federal governments. Observe, if wou please, their financial response to such drives as United Fund, cerebral palsy, Easter Seal. Beart Fund, and many more worthy causes. This warm glow of generousity manifested by Americans fills our hearts to the

tune of a big plus. Listening recently to a two-hour Public Laboratory Broadcast, a report on the an "examination of the ghetto and on the President's Advisory Commission's report on civil disorders, we were deeply moved. Our flashbacks at the solemn conclusion pounded upon our heart and rapped upon your head with the puzzling question still unanswered:

"Why has the United States which lends a hand and heart, an army and wealth abroad in response to a commitment, so turned a deaf ear and unseeing eye to the malignancies that so fester across the ma-

Why are justice and humanity the flingers of a slove to be fitted only to those with ability to climb out and away from their environ-

Must dignity be made available only to the white man, red man, vellow man, and black man who earns it? At this very hour, this answer is not wet acceptable, when we observe the despair, fraught with madness to action, "Burn Balbw. Burn."

This is certainly no compliment for a powerful nation like ours. The components of the status quo. plus blind eye and deaf ear, plus the satisfaction that our nation is

#### Are Students The Odd Man Out?

We chanced upon one occasion some years ago to attend an "ole country" house entainment to raise money for ront. One of the most fascinating social activities centered around a musical walking-dancing same in which "the odd man" moved out of the main circle. Still minoing in our ears is the chant -"Weah! the odd man is out!"

In observing the activities of youths in our institutions of higher learning, it would appear that many of them act like "the odd man mut. "

Some students make themselves obnoxious by their behavior in public. At a predominantly Negro state college in the southeast, one suspended student came back on the campus. When he was cited for irregularity in parking, he made it a mockery by tearing up three parking tickets night in front of the policeman who was writing them. Quite a crowd was assembled in front of the cafeteria, and the young fellow "showed out." And the crowd of students cheered him Did he make a fool of himwelf!

2. Typical, of another case, is another suspended at the University of California whr was cited for pulling off his clothes on the steps of the administration building in protesting against the Wietnam War. The young man was 20 years old and junior majoring in psychology. The compus policemen arrested him for indepent exposure and resisting arrest. His bond was set at \$750.

3. We have observed on four compuses that speed bumps had to be set up on the thoroughfare around the girls' residence halls. We learn that quite a number of male students with cars disregarded safety rules by specifing with noisy mufflers in the vicinity. The speed bumps may the beauty of the drive-ways, but they are serving a useful purpose for raving nutheads.

In fun, the nondriving students call these concrete bumps carminglers. Indeed they are, for the unsuspecting speed deman could have a dangerous wreck if he did not know they were there. But maybe this is the penalty he must pay for his lack of indiscretion.

4. On the feminine side, some miniskirts leave almost nothing to the imagination. Instead of attracting attention, they border on the dividing line between repulsiveness and decency. Besides, every girl has not been cut out by the creator to wear the "darn things," to wit: the nearly - 230-pounders, the goindie-leggers, the overly - large frame, and many more who seem to dely all description in the name of art and the pretty figure. It is our guess that only shout ten per cent of Those weating the abbreviated skirts look good in themand then only when the skirt-line is no higher than about two or three indhes shove the callves.

A person has a might to wear what he or she wants, but first. we recommend that he take a good look in the mirror. And this nounwell would be apropos to behavior and public conduct as well.

What hope in there for "the odd man out?

#### Is Our March Reporting Journalistic Micry

There is a well-worn cliche, "I know nothing but what I read in the newspapers..." But, also end inemein lies the danger!

For the last two years, we have Itstened to Vietnam War reports television and radio in several states. In contradistinction to the Will Rogers' clicke, the reporting cernies us back to World War II and the Korean War. That news and what we are hearing from the TV medie are so ridiculous that any person with a mentality of a 10-year-old child could not possibly

Listen to this typical situation: One telecust reported an incident in which our troops were engaged by about 400 West Cong mear Solson, who had 50 caliber machine

guns. The Wist Cong shot down one helicopter and damaged one of our planes; no injuries on our side. Had the enemy been armed with wet cobs we doubt seriously there would be no injurier.

Most recently we listened to several telecasts of war casualtien. In one instance the enemy dead weathed 15,000 and until the last week or so our cesualty list memained at 422. The news TV media must do much better than this. The listening public is better informed than it was 75 years san. The paople are by no means imbaciles who will believe this kind of reporting. Are the hig-wigs afraid we the people can't take the imith?

Indeed --- we can!

ARE NEGROES BEING DETHINKED THE WILLIAMENT M. SANDERS

I fadi that one of the greatest problems facing Negroes hoties is that we have too many so-called leaders that don't usally know what the greater majority of Negroes want or need. Even the leador belitting own arms distinct on what course to follow. Some of the tactics and procedures they are using today are out of step with our times. In the past we have had some great leaders that were in-

tarestall in the orderly pro-

greens of Megroes and had his wellere ut heart. To mention a few, Dulouis, Walter Witte, Ralph Bunche, Thurgani Marshall. There sze many mozettat te ve made worthy contributions, women have also played an important role to the Magraes' quent for equility. These people had wisdom and hersight and as Americans were also inted in the welfare of othcars. With a touch of satisfiess I remember Adam Clayton Powell, young and dynamic with great potential and a great fature as a locator. Sureis, I thought this mun will lead the Negro to the pro-mined land, but also be fallad me, he falled the Negro

south, he exploited them for its own personal gain. I would like to ask a three wint question. Where does the Magro stand today? What tions the want? Where is the going? First, we need some sd bandership. Secondly, we used to do away with these

so-called non-violent organizations they are making a mockery of non-violence and thirdly, we are going to end up in civil disorder unless we fund some way of shencing these black power advocates that are preaching open webellion and using violence as a means of obtgining the Negroes goals. What the Negro needs is Green Power, black power is no good without it. And onen war with whites is plain suicide for the Negro. Financially, we could not equip ourselves to even wage war. Separation will not work either, even if Megroes decided to go it on their own. Where is the money coming from to set apindustries no ed to employ Negroes from Negroes from Negro Insurance Companies, Hanks? We migit as well face the facts as they are and start using some sound same judgment when we are dealing with expleasive sitnations. It is generally known that Negroes have been explotted by whites down through the years. With the par of the Civil Rights bill Megross have made more progness und things will get botter unless we sit idly by and be misled by a few people holding Doctorate degrees lead us down the drain and retarding all the progress we have made thus far. Those people have it made, not are they concerned about the litthe Negroes who are trying to live on peanuts?! Speaking from the heart, our heat bet is to follow the mourne on which we started most of our progress thus far have been gained through legal and nonviolent means. Let's keep it that way. We must continue to work with write people for we need them as well as they need us, even so where would

# Whols Failing Students Or School?

Who is failing - the students or the school? Should one out of every ten school beginners be labeled failures? This year ten per cent of the first-graders are repeating the first grade. This has been true for each of the last six school wears.

There is no way to estimate the real cost to the individual and to the State of the lost or damaged learning potential of these IL 336 students. To offer the first grade again to this ten per cent is costing the State \$4.659 .-096 during 1967-38. The over during the last six years is at least a minimum of twentyeight million dellars.

Let us suppose for a moment that a wiser use were made of both the child's time and the achours resources. What could have

The cost of kindergarten classes on a state-wide basis in terms of support now provided for grades one through twelve would have been about thirty million dollars during 1967-68

At the average North Carolina salary, 831 teachers could have been employed or 1300 teacher - mides allotted to elementary schools. These teachers could permit further reduction of class size. "The purchase by the State of free textbooks, 1966-67, was \$6,055,417. State expenditures on instructional supplies that year was \$2,041,000. Students using the same books two years may be a minur expense item, but greatby increased sumilies and books could have been provided from the saving of duplicate programs and facilities.

\*\*Funds for library books, allorted on the basis of one dollar per pupil or a total of \$1,759,806.00 in 1965-66, could be increased to \$4.00 per pupil. This means a new hibrary book per child added to the shelves. \*\*Each of the USI school units could have

been allotted \$28,987.00 for research into its early childhood education programs. Five centers in different areas of the state could have had nearly a million dillars each to research and test new instructional programs. These dates indicate that a change may be

needed in the administration and organization of the primary grades. Perpetuation of a program in which ten per cent of its beginners fall each year should not be allowed. More realistic and practical planning for young children is in order.

## FIDITOR'S NOTE - True is a

threatise sent to this paper by Rev. Wilson W. Lae, arrient di-

STATESWILLE - This film and the Hiseness have been in this area for some time mow. The repertory of this sinisterness was drawn upon last year and shown at the Holiday Inn. So midiculous, disparaging, ma-Licious, and racist, that it was widening to some of the white people there. However, strenu-ous efforts by diabolical minds were made to get the message over to the Negro community. Thanks to Negro leaders for their alertness and pride. They discovered the gampose and inthent of this film, and warned that a circulation of this film among Negroes would only support the mockery of the Negro and his cause for night and

justice in this lend. Philes, of excurse, did not stop those who were bent on ridiculting-the Nagro and his apall for night and justice in this Land as other chizms. The film has been circulated through the churches. Is this my "stranged winder?" It should not be a supprise when th comes to man, Though hi cincild be discounting, for the church is a place where we must keep haps. Nevershaless, to-day his clumb is the weakest moral institution in the Nation. Folded hands and bowed heads timped over pulpits with elo-quent writes that seem to make access in platy have little application in American society. Duen more to melt away in From more those gestures have little meaning in the church itor most cases, the church has mot offen above a social club which has to vote whether a man ud black skin may become a membar or whether he may the sected iff the should enter the thurth as a communicant. Common hospitality generally offers flifs in almost any business office or beer towers. We must pray much for the organized church of America for it is indeed a morbid force.

The church's position in such an unwholesome enterprise as sustaining an encouraging or regist films is unfortunate. However, skillful minds have not been centent to allow this will to remain in the churches and the Holiday Inn; they are now contriving to bring these Illims into the schools discuising their intention as an effort to Rent communism. Negro students are ceptive audien white students laugh und uppland at racial statements con ing throm the film such as tive don't want niggers in our schools." Buch a like was shown at Worth Inedell High School, and the conduct of

white students was as indicated in quotation. Now we ask you as mothers

wil rights leader. He newle us and fathers of these children, the affect of a film, he describes as Negroes, as fair and well as Ananchy -- USA, which was intentioned white people, what was the purpose of showing this film? Wastran educational intent? Well if you think it was, then the behavior of the instructor who was in charge of the students becomes extremely difficult to understand within the contrast of attacetter. There were many derogatory statements made toward the Negro where the white students either applauded, jeered or hooted, and the instructor did not at any time attempt to nestrain them or to made them into better behavior.

Is at not true that the purpose of showing this film was to hundliste, to dispirit, to ridicule, to embarrass, to induce an interiority complex, and to harass the Negro community for its protest against the evils of

The thack man in this nation has every night to feel proud of his loyalty and patriotism. He has fought bravely in every War the United States has been engaged under slogan banners of "freedom and justice" which the Negro did not enjoy then, nor does he enjoy now while the many black men die in Vistnam. You do not need the Fohn Birch Bodiety, or any either group to tell you how to mentale loyal to the United States of America, if this was the reason for showing the film, and we doubt that is was. You do not need these ultra -rightist groups, John Birch Society, Southern Conservatism (Westin South), the Minuseman, the En Blux Klan and other groups of this assortment, to give us Almosticus on the love for mumanky, for they do not have to the black man.

nor wicket to pliane the Ku We Klex Wien is not in the same category with Bouthern Cleaservatism when it comes to power, that is white sower. Southern Conservation is not in the same bracket with the Ku Klux Klan when it comes to overt violence. This Conservatism may not inthinge in the bonding of homes, the shooting into homes, the bombiog of churches and the killing of children, distructing the mights of men by shooting thom as they rate on the littleway, and other barbaric artis (do not be too positive of the negative; mon in iden places are often involved in these dirty -- remember the three civil rights workers in Missiosimple) but it is out of the aptrit of Southern Conservation that the Klan was born, thriwes, inspired, and annouraged.

Eighi Ku Klux Klanmen were

treed in Salisbury, North Caro-How from mostles aren for their part in terrorism. These men ware freed by Southern Conservatism ar white power. Does anyone believe that they would have been freed had they been black men shooting into the homes of white mon? History would not support North Cardina for those who would say "yes." Let us begin with a point of argument that nomen with any degree of justice and right can deny. The Negro has paid the death penulty many times for acts committed as gainst white people, but never has a white man gone to death as a penalty of law for acts committed against Negroes in North Carolina. Many times Negroes could not get a warrand against a white man for the same acts Negroes were put

It is in the areas justice and

the practice of the principles of right that your children need the applicance the John Mirch Society, and by all means Southern Conservatism. Invite any member of these groups to dis-Nation, and you will get a race little lie. "Wh, I am so sorry but I have to be out of town. Enstead of showing a film on communism (muposedly) to Ne-gro boys in Borth freds!] High School, it would be to have more appropriate to have shown both white and Negro boys films on the injustice undersely ty in the United States based on the order of me's skin. The Nagro boy would certainby be more concerned about the beastly act of Highway Patrolmen shooting down black youth because they protest the immerality of segreg ad on the other of one's skin, It would have been an opportunity to have said to the white boys it themselves when it comes that the world expects a emester display of morelity This writer is not so asining from them than what their thithers have shown and arenow What Klan in the same care- showing. It is clear, you cangory as Southern Conservation not trust the fate of the minds without a specific reason. The of your youth to prejudice entade, in the Holiday Im, the church nor the school. Mr. Wenable has a copy of this

Eighway patroinen brutes with guns in Orangeburg, South Carolina, are much closer to the Negro than soldiers with tanks in Hungary.
