

5 KILLED IN LOCAL PRISON RIOT; 2 NEGROES

When the word was out Wednesday morning that five persons had been killed in a riot at Central Prison Tuesday night, the office of the CAROLINIAN was besieged with inquiries as to the identity of

those slain. A report from the prison revealed that two Negroes and three whites were killed. The two race men were William Matthews, 29, from Halifax County, who was serving

an 8 to 10 year-sentence for breaking and entering. The other was Nathaniel Lotta, 33, serving a 15-yr.-sentence for attempted rape on a female. The whites were Jerry Walston, 22, with a 5 to 7 year

sentence; Donald Fox, 26, who was serving two life sentences for murder and Andrew Branch, 40, who drew a 14 to 15 sentence or assault on a female with intent to commit rape.

The bodies of the slain prisoners were said to have been turned over to local funeral homes, to be prepared for shipment to those who might claim them. However, when Lightner's Funeral Home was con-

tacted, due to the fact that the information revealed that Matthew's body had been carried there, it was found that it had been carried to Wake Memorial Hospital. A spokesman for the hospital said that Dr. W. W.

Hedrick would have to give any information pertaining to the handling of the body. Dr. Hedrick said an autopsy was being performed and as soon as this was over the body would be released to the fun-

eral home. Lotta's body was carried to Rex Hospital. It was revealed that the same process was being followed at Wake Memorial. Prison officials said that the

UPRISING HITS PRISON - Raleigh: A charred mass of debris is all that remains of the bath house at Raleigh's Central Prison following an all-night spree of violence in

which five inmates were shot and killed by guards shooting from the prison walls. Authorities said 78 inmates were wounded in the uprising. (UPI PHOTO).

Rioting Dies Down But Not The Reason

CHICAGO - This city's rioting has come and gone -- but not the efforts to seek its causes.

Several explanations of the city's turbulence, which followed the assassination of Dr. Martin Luther King, Jr., has been given. Each of them may tell only part of the story, or may be part of a larger picture.

In particular, those seeking to make sense out of the rioting wanted to know why so much of it took place on the city's Westside and so little on the Southside, which has a larger Negro population.

Was the rioting planned? Or was it the spontaneous outpouring of volatile emotion after Dr. King's slaying?

These "explanations" of the outbursts were given: --The disturbances were set into motion even before Dr. King's assassination. Protest demonstrations and marches planned by high school students in the riot area turned into violence when the civil rights leader was slain.

--The community hit the most by rioting has a high proportion of young people. Of the Westside riot area's 200,000 residents, 100,000 are under 19.

--Police made little effort to restrain the looters, according to black State Sen. Charles Chew, a former Chicago alderman.

--Some businessmen invited rioters to loot their stores, in an effort to prevent further damage, according to Capt. George T. Sims, police commander in the Westside trouble area. The result, he said, was a "breakdown of law and order."

--Some persons evidently took advantage of the rising tensions to commit arson during the rioting. The arrest of several black militants on the Westside supports this contention.

--Dr. King's assassination itself had a traumatic effect on the black population. Without a leader, an authority figure, a symbol of the collective Negro superego, many black people felt that the civil-rights leader's slaying had released them from their restraints and obligations.

--The more usual explanation was that the rioting was a retaliation against whites for age-old injustices and abuses.

--The rioting tended to concentrate on the Westside, because that is the port of entry for many recent migrants from the South, who have not yet developed a stable community life.

(See RIOTING, P. 2)

WANTS NEW START - MINNEAPOLIS: Robert F. Daniels, 53, of Minneapolis, a janitor wants a fresh start. And he wants that start in a place where he feels he is wanted and will be given the chance to prove himself, Gabon, Africa. Though he was born in Georgia, he feels ties to Gabon where his parents were born. All his life, he's been trying to get somewhere, but nobody gives a poor man a chance. Daniels also said "I've come to the end of my road in the United States. I'm too young to retire and I can't get a better job." (UPI)

Representatives from the Central North Carolina were in attendance. Others who took part were Mrs. Barbara Daniels, Rev. J. A. Brown, Miss Katie L. Frye, Mrs. Annie Thorpe, Mrs. Estella McMullan, Mrs. Ethel Simmons and Miss White. Hawkins' speech ranged over a wide spectrum of subjects dealing with what he termed the need for "a new political, social and economic system" in North Carolina.

Although he did not mention Gov. Dan Moore by name, Hawkins charged that the administration in power "the last few years" has been more concerned for the protection of property than human spirit or human lives. "Immediately when black people march for justice the National Guard is called out. But when we ask for protection

HELD IN MARIJUANA CATCH - NEW YORK: Police April 13 seized 1,000 pounds of marijuana and 2.2 pounds of cocaine from a camper truck in Harlem and charged its owner with operating a roving business in the sale of narcotics. The suspect, Major Cobb, 25 (shown in police photo), of (3550 Edson Ave.) the Bronx, was described by police as "one of the biggest dealers in the area." Police valued the seized narcotics at \$1 million. Cobb was arrested by a team of detectives who hid themselves beneath cars and trucks in a commercial garage in Harlem and waited until the camper arrived. Police said the garage at 673 St. Nicholas Ave., near West 144th Street, is owned by Cobb's father, Walter. (UPI)

There might be more food value in one duck egg than in three hen eggs but the record does not show that there was ever a dozen duck eggs that sold for \$200. Hold your hat before your head blows off--that is what happened at the 21st annual Johnston County Ham & Egg Show Sale, held in the Agricultural Building Thursday.

Eggs Sell For \$500

The Grand Champion Dozen of Eggs, produced by Mrs. Sadie Merritt, Rt. 1, Clayton, was sold for \$500.

Memphis Strike Ends

MEMPHIS, Tenn. - Councilman J. O. Patterson, Jr., one of the three Negro members of the Memphis City Council said when the sanitation strike was settled here Tuesday, "This could have been settled seven weeks ago. We could have avoided all this, including the death of Dr. King."

The strike of the 12 hundred garbage workers, most of them Negro, which really came into focus when Martin Luther King went in to aid them to get better working conditions, was settled on practically the same terms that were drawn up seven weeks ago.

Dr. Ralph Abernathy, who succeeded King as the leader of the Southern Christian Leadership Conference and Mrs. King, came back and led the march the day before King's funeral was held. It was then that Abernathy vowed to return to Memphis. Now that the strike has been settled no one seems

A STRIKE ENDS - The smile of a man glad to be back at work is framed through the doors of a Memphis sanitation truck April 17. He was one of 1,200 garbage collectors who returned to their jobs to end a 10-week-old strike that brought Dr. Martin Luther King to Memphis and his death. (UPI PHOTO).

CLUB DYNAMITED

Protests Get Results

High Bonds Hold Four For Fires

A web of evidence was woven around four youths Tuesday so tightly, in the firing of Raleigh Rescue Mission warehouse, by a classmate of two of them, until the quartet was bound over for action by the Wake County grand jury on arson charges.

Herbert Smith, 18, 930 S. Blount St., gave a running description of what he alleges he saw on the night of April 4, when the warehouse went down, in the wake of racial reprisals, that were evident over the nation, over the slaying of Martin Luther King.

Smith, a student at Ligon School, told Brooks Poole, who held the hearing, such a convincing story until Daniel Williams, 18; William Thurman Washington, 20, and Dennis O'Hara Davis were held in \$10,000 bonds. Ernest James McDowell, 17, was held under \$21,000 bond. He is also being held for Chatham officer in connection with the breaking and entering of a place of business in Pittsboro, where \$6,500 worth of clothing is alleged to have been taken.

Smith told of being in the front yard of his home, across the street from the warehouse and was attracted by the noise that the four were making, in front of the warehouse. He alleged that Williams was on the steps

(See HIGH BONDS, P. 2)

Council Modifies

The Raleigh City Council Tuesday decided to do something about the protested high water bills of Mrs. Wilma Collins and Mrs. Helen Lucas. It decided that the bills would be cut in half.

The council also decided that it was time to actually do something about water bills in general. This is said to have been long overdue. The Housing Committee was told to make a thorough study of the policies being used and ordinances governing water bills.

The matter of the relationship between landlord and tenant, as it applies to the paying of water bills, is expected to come in for close scrutiny.

The decision to make a thorough investigation grew out of the protests by the two women. Mrs. Lucas is said to have received a bill for \$37.

(See COUNCIL, P. 2)

Man Shot By Guard

A death, believed to be an aftermath of the recent unrest here, caused the arrest of Norman Watson Davis, 21-yr.-old private detective Saturday night. Davis is being held on a \$3,000 bond for the fatal shooting of Robert Willis Spencer, 18.

Piedmont Investigators was employed by Abe Greenberg, owner of the apartments, to guard the property, according to Davis.

Police quoted Davis as saying he noticed a window broken in the west side of a vacant apartment and saw a person near the side of the building. When he opened the door of the apartment, Spencer lunged at him and

(See MAN SHOT, P. 2)

RELAXING - Khe Sanh, S. Vietnam: Marines find a few moments relaxation prior to going on an operation against the Communists outside the Khe Sanh outpost recently. Marines suffered their heaviest single loss of the Khe Sanh campaign April 16. Eighty-nine men were killed, wounded and missing, when a patrol ran into a heavily entrenched North Vietnamese unit in the mountains four miles to the southwest, a spokesman said in Saigon April 17. (UPI).

Woman Sets Man Afire

Miss Senora Elizabeth Truesdale, 627 E. Hargett St., will face Magistrate Brooks W. Poole Thursday, 4 p. m. for attempt to destroy the body of David William Clark, by pouring kerosene on it and then setting him afire.

The incident is said to have taken place Monday, at the home of Joseph Clark, brother of the victim, 320 1/2 Love's Lane. Police were not able to determine what enraged the woman so until she decided to make a human pyre out of Clark. Neither was it disclosed as to what Clark was doing to permit her to pour the kerosene on him and then light it.

According to Ralph Johnson, the officer who arrested Miss Truesdale, the fire did considerable damage to Clark's body. He is said to have suffered burns to his arms, face and trunk. Joseph Clark and another man, are said to have smothered the

FROM RALEIGH'S OFFICIAL POLICE FILES THE CRIME BEAT

CHILDREN SUSPECTED Mrs. Catherine Brinkley Thomas, 1908 Boaz Rd., told police that 10 p. m. Thursday she heard the doorbell ring. She is alleged to have heard voices, but no one answered. When her husband came home about 4 a. m. Friday, he is said to have found the mail box against the front door. They have reason to suspect some of the children in the neighborhood.

FORCES WAY IN Emma Egerston, 741 Rock Quarry Rd., did not like the way Edward Hinton, 45, entered her house, at 5:30 p. m. Friday. She was further dissatisfied with the way he treated her, after reentry in. She signed a warrant for breaking

and entering and also assault with a deadly weapon. She described the incident as Hinton having kicked in the door and assaulting her by cutting her on the left side of her neck. The cut is said to have been 4 1/2" deep.

CHARGED WITH STEALING Howard Walton, 16, 23 Mecklenburg Terr., has been charged in a warrant, signed by William Harris, 608 1/2 Coleman St., with stealing an auto. Harris reported that his '59 Chevrolet was stolen from the 300 block of Fayetteville St. 6 p. m. Friday. The car was said to have been recovered in the 1200 block of E. Jones St. at 11 p. m., the same day. Officer Malinda Ricketts is said to have seen the suspect driving the car.

Suspicion Points To Klan Hate

DURHAM - "They stuck a stick of dynamite in here and blew the place to hell," were the words that a white spectator uttered to the CAROLINIAN, Tuesday, in describing the obvious bombing of the Stallion Club, wellknown rendezvous for nite life lovers and entertainment seekers of both races.

The spot was the object of a dynamite blast about 6 a. m. Tuesday, which not only damaged the building to an approximate extent of \$25,000, but awakened many residents in the community and broke windows in many of the homes, located in the area. The cause of the bombing and the persons responsible were both unknown to investigators.

The blast happened after an Easter Monday night affair took place and it was reported that the last person left the place about 3 a. m. There was much speculation about the cause, but it was definitely established that it was not a recurrence of the racial unrest that followed the assassination of Martin Luther King. It was apparent that the person or persons responsible planned entrance through a back window, laid the dynamite on the floor in the rear of the building and lit the fuse. The blast tore a hole in the concrete floor a-

(See SUSPICION, P. 2)

Candidates To Appear

Dr. C. W. Ward, president, Raleigh Citizens Association, announced Wednesday that many of the candidates, offering for the May 4th primary, will be in attendance at the monthly meeting of the Association, Thursday, 8:15 p. m., at the Bloodworth St. YMCA.

The meeting is being held, in the hope that Raleigh citizens will take advantage of the opportunity to question the candidates, as to their stands on the issues, that are of concern to the citizenry, so that voters will be able to choose, on the merit of the candidates.

All persons seeking office, from U. S. Senate to the county court house have been invited to appear. Many of them have said that they will attend and will be happy to give their views on the matters facing the state and nation.

Negroes have expressed much concern over the candidates who are out to replace Sam Ervin, Jr., in the Senate. It was not determined whether any of his opponents would be present or not. Many of the state candidates are on the

WEATHER

Temperatures during the period Thursday through Monday will average above normal. Daytime highs are expected to average in the lower 70s in the mountains and 70 to 85 elsewhere. Lows at night in the 50s resulting from the up-coast. A low pressure or trough over the upper 50s on the coast. Warm Thursday and Friday, turning a little cooler over the weekend. High Monday. Precipitation will total 1.4 to 1.6 of an inch in the mountains and less than 1/4 elsewhere, with little if any rain and along the coast. A low pressure or trough over the upper 50s on the coast. Warm Thursday and Friday, turning a little cooler over the weekend. High Monday. Precipitation will total 1.4 to 1.6 of an inch in the mountains and less than 1/4 elsewhere, with little if any rain and along the coast. A low pressure or trough over the upper 50s on the coast. Warm Thursday and Friday, turning a little cooler over the weekend. High Monday. Precipitation will total 1.4 to 1.6 of an inch in the mountains and less than 1/4 elsewhere, with little if any rain and along the coast. A low pressure or trough over the upper 50s on the coast. Warm Thursday and Friday, turning a little cooler over the weekend. High Monday. Precipitation will total 1.4 to 1.6 of an inch in the mountains and less than 1/4 elsewhere, with little if any rain and along the coast. A low pressure or trough over the upper 50s on the coast. Warm Thursday and Friday, turning a little cooler over the weekend. High Monday. Precipitation will total 1.4 to 1.6 of an inch in the mountains and less than 1/4 elsewhere, with little if any rain and along the coast. A low pressure or trough over the upper 50s on the coast. Warm Thursday and Friday, turning a little cooler over the weekend. High Monday. Precipitation will total 1.4 to 1.6 of an inch in the mountains and less than 1/4 elsewhere, with little if any rain and along the coast. A low pressure or trough over the upper 50s on the coast. Warm Thursday and Friday, turning a little cooler over the weekend. High Monday. Precipitation will total 1.4 to 1.6 of an inch in the mountains and less than 1/4 elsewhere, with little if any rain and along the coast. A low pressure or trough over the upper 50s on the coast. Warm Thursday and Friday, turning a little cooler over the weekend. High Monday. Precipitation will total 1.4 to 1.6 of an inch in the mountains and less than 1/4 elsewhere, with little if any rain and along the coast. A low pressure or trough over the upper 50s on the coast. Warm Thursday and Friday, turning a little cooler over the weekend. High Monday. Precipitation will total 1.4 to 1.6 of an inch in the mountains and less than 1/4 elsewhere, with little if any rain and along the coast. A low pressure or trough over the upper 50s on the coast. Warm Thursday and Friday, turning a little cooler over the weekend. High Monday. Precipitation will total 1.4 to 1.6 of an inch in the mountains and less than 1/4 elsewhere, with little if any rain and along the coast. A low pressure or trough over the upper 50s on the coast. Warm Thursday and Friday, turning a little cooler over the weekend. High Monday. Precipitation will total 1.4 to 1.6 of an inch in the mountains and less than 1/4 elsewhere, with little if any rain and along the coast. A low pressure or trough over the upper 50s on the coast.
